[Fourth Publication.]

No. 20.—Notification.—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force on the Calcutta Canals and Tolly's Nala with effect from 1st July 1904.

D. B. HORN,
Secy. to the Govt. of Bengal.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala":—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *huggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14. In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the deges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and

no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18. In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26. For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

27. No boats will be allowed to remain between the Dwarf walls of the entrance channels to the Dhappa and Chitpur Locks.

PROCLAMATION.

No. 950.—Whereas by the 79th section of the Government of India Act, 1833, it is provided that the departure from India with intent to return to Europe of any Governor-General of India shall be deemed in law a resignation and avoidance of his office; and whereas the Right Honourable Baron Curzon of Kedleston, P.C., G.M.S.I., G.M.I.E., has this day departed from India with intent to return to Europe, and a vacancy has thus happened in the office of Governor-General of India; and whereas it is provided by the 50th section of the Indian Councils Act, 1861, that if any vacancy shall happen in the office of Governor-General of India when no provisional successor shall be in India to supply such vacancy, then, and in every such case, the Governor of the Presidency of Fort St. George, or the Governor of the Presidency of Bombay, who shall have been first appointed to the office of Governor by His Majesty, shall hold and execute the said office of Governor-General of India until a successor shall arrive or until some person in India shall be duly appointed thereto; and whereas there is not in India any provisional successor to supply the vacancy in the office of Governor-General of India; and whereas His Excellency the Right Honourable Arthur Oliver Villiers, Baron Ampthill, G.C.I.E., the Governor of the Presidency of Fort St. George, was first appointed to the office of Governor by His Majesty within the meaning of the section last referred to, it is hereby proclaimed that His Excellency the said Right Honourable Baron Ampthill, G.C.I.E., has this day assumed the office of Viceroy and Governor General of India and has taken his seat in His Excellency's Council.

By order of His Excellency the Viceroy and Governor-General of India in Council.

ESTABLISHMENT.

The 26th April 1904.

No. 318.—The services of Mr. H. J. McIntosh, of the Indian Civil Service, are replaced at the disposal of the Government of Bengal, with effect from the 7th April 1904.

MEDICAL.

The 26th April 1904.

No. 395.—The Governor-General in Council is pleased to direct that the following shall be substituted for paragraphs 3 and 4 of the Home Department Notification No. 437, dated the 25th July 1893, as amended by the Home Department notifications noted on the margin, regarding the remuneration of medical officers for attendance on native chiefs and nobles and native gentlemen of high position in a native State:—

No. 1930, dated the 8th October 1900.
„ 852, „ 12th June 1901.

"3. The native chief, noble or gentleman may offer any medical officer of Government attending him such fee as he thinks fit. The offer made will be reported by the medical officer to the Political Agent or other officer of Government exercising political functions in the State of which the said chief, noble, or gentleman is a resident, for the consideration of the Local Government within whose jurisdiction the native State is situated. This report will state the period during which he was in attendance and the number of visits paid. The medical officer will at the same time submit to the Administrative Medical Officer, or Inspector-General of Civil Hospitals, to whom he is subordinate, a full medical statement of the case showing the nature and extent of the relief afforded, the importance of the case from a professional point of view, and the circumstances in which he attended the patient. The Local Government is required to satisfy itself that the fee proposed is not out of proportion to the relief afforded and to the circumstances of the case, and has authority to sanction the acceptance of a fee not exceeding Rs. 2,000. In considering these questions it will, if necessary, refer to the Administrative Medical Officer or Inspector-General of Civil Hospitals, as the case may be. If the proposed fee exceeds this sum, the matter will be submitted, with a full report, by the Local Government for the consideration and orders of the Government of India.

"4. The reports prescribed in the preceding paragraph will not be required from a medical officer when the fee does not exceed Rs. 50 a visit, or Rs. 1,000 in the aggregate for repeated visits in the course of a year."

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on Friday, the 13th May 1904, corresponding with 31st Baisakh 1311 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidders above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.:

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

WEDNESDAY, MAY 4, 1904.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

THE following Notices are published for general information.

D. B. HORN,
Secretary, Marine Department.

CALCUTTA, *the 30th April 1904.*

ARABIA, SOUTH COAST—GULF OF ADEN, NORTH SHORE.

Makalleh bay.—Erection of a Watch Tower, Sultan's Residency and other buildings.—Disappearance of the Flag-staff, and ruined Fort on Ras Marbat.

No. 138 (first publication).—The Bombay Government has given notice (No. 49 of 1904) that information, dated 5th April, has been received from the Officer Commanding R. I. M. S. *Dalhousie* that an additional square stone Watch Tower is erected, bearing N. 40½° W. (true) 1 mile 5¾ cables from Ruined Fort on Ras Marbat.

An imposing looking Residency for the Sultan is now being erected and nearly completed (March 1904) with other buildings in the course of construction to the westward of the town and are connected by a good road.

The Flag-staff shewn in the centre of town does not exist.

Ruined Fort on Ras Marbat is not conspicuous from the anchorage, being now almost entirely in ruins.

This Notice affects the following Admiralty Chart:—Anchorages on the coast of Arabia, Makalla Bay, No. 10; also Red Sea and Gulf of Aden Pilot, fifth edition, 1900, page 426.

JAPAN, SOUTH COAST—HONSHU (NIPON).

Mura and Goza harbours—Rocks in approaches.

No. 139 (first publication).—The British Admiralty has given notice (No. 229 of 1904) that on a recent Japanese Chart the undermentioned dangers appear in the approaches to Mura and Goza harbours:—

MURA HARBOUR.

A rock with a depth of 1½ fathoms over it, situated with Kadzura sima summit (222 feet) bearing east, distant 2 cables, and Kohara sima summit N. 37° E.

GOZA HARBOUR.

a. A shoal, named Mutsuna sho, with a depth of 2½ fathoms over it, situated with the summit of Goza saki (310 feet) bearing S. 59° W., distant 12 cables, and Clump (233 feet) N. 45° W. This shoal extends for a distance of one cable S. 16° W. from the above position, the depth being 2¼ fathoms on its southern limit.

There is a shoal head, with a depth of 4¼ fathoms, 1¼ cables S. 53° E. from the position of the above 2½ fathoms.

b. A shoal, named Kohira sho, with a depth of one fathom over it, situated with Goza saki summit bearing S. 61° W., distant 16 cables. and Clump (233 feet) N. 56° W. This shoal extends about one cable S. 5° W. from the above position, the depth on its southern limits being 1¼ fathoms, but as defined by the 5-fathom contour line it extends nearly 3 cables in the same direction.

c. A shoal, named Sato ne, with a depth of one fathom over it, situated with Goza saki summit bearing S. 58° W., distant 15¼ cables, and Clump (233 feet) N. 56° W.

From this position the shoal extends for a distance of 1¼ cables N. 80° W., there being a depth of 2¼ fathoms on its western edge.

d. The 5 fathom contour line extends from the coast southward of Hamagema ura across the entrance to a distance of 3¼ cables S. 8° E. from the Clump (238 feet).

Approximate position, Goza saki summit, lat. 34° 16¼′ N. long. 136° 45¼′ E.

(*Variation 4° Westerly in 1904*)

A new edition of Chart No. 994 will be issued when it has been corrected from the Japanese Chart recently received.

This Notice effects the following Admiralty Chart:—Mura and Goza harbours, No. 994: Also, Sailing Directions for Japan, etc., 1904, pages 340, 341.

PACIFIC OCEAN—Philippine Islands—Luzon, south coast.

Port Sorsogon.—Light established.

No. 140 (first publication).—The British Admiralty has given notice (No. 238 of 1904) that, on 5th February 1904, a *white fixed* lantern light, elevated 120 feet above high water, and visible from a distance of 6 miles, was established on a tree situated on the north-western extremity of Bagatao island, port Sorsogon entrance.

Approximate position, lat. 13° 49¾′ N., long. 123° 47¾′ E. on Chart No. 2395.

This Notice affects the following Admiralty Charts:—No. 2577, St. Barnardino and Mindoro straits; plan of Port Sorsogon on Chart No. 2395; Also, List of Lights, part VI. 1904, page 105; and Eastern Archipelago, part I., 1902, page 338.

PERSIAN GULF—Bushire to Muscat.

Wreckage westward of Ras-al-Mutaf.

No. 141 (first publication).—The Bombay Government has given notice (No. 41 of 1904) that the Master of S.S. *Kola* reports that during his voyage from Bushire to Muscat, he passed in Latitude 27° 42′ N., Longitude 51° 16′ E. and 19 fathoms of water a mast step uppermost and appearing to be attached to sunken wreckage.

It showed 4 feet out of water and about 1¼ feet in diameter.

This Notice affects the following Admiralty Chart:—Persian Gulf, northern portion, etc., No. 2837b; also Persian Gulf Pilot, 1898, page 258.

BAY OF BENGAL—Hooghly river.

Cowcolly light increased in intensity.

No. 142 (first publication).—The Commissioners of the Port of Calcutta have given notice, dated 25th April 1904, that on and after the first day of November 1904, the existing fixed white light exhibited from a white tower 62 feet above high water, 2 miles S.S.W. of Kedgeree point, will be increased in intensity from about 500 standard candles to 1,250 standard candles or 1¼ lighthouse units.

The new apparatus will be dioptric; but the character of the light will remain unchanged. The light will be visible between the bearings of N. 13° E. through North to N. 83° W.

The light will be visible in clear weather from a distance of 13 nautical miles.

Note.—The bearings are magnetic, and those concerning the visibility of lights are given from seaward.

Position.—Lat. 21° 50′ 10″ N. long 87° 56′ 9″ E.

This notice affects the following Admiralty Charts:—River Hooghly, Calcutta to Saugor Point, No. 136; the Sandheads, False Point to Matlah river, No. 814; Bay of Bengal, No. 70; India, Coconada to Bassein river, No. 829; also List of Lights, Part VI, 1904, No. 353.

AUSTRALIA—Great sandy strait.

Stewart island flats—Moonboom lead altered and directions for use of the new channel given.

No. 136 (second publication.)—The Port Master, Brisbane, has given notice (No. 4 of 1904) that on and after the 19th March, in consequence of a Deeper Channel having opened up at Stewart Island Flats, the Moonboom Lead will be altered so as to lead in 8 feet at L W.S. across the shoal off the north end of Stewart Island. A small pair of leading beacons will also be erected at the eastern end of this lead (on Stewart Island).

The following are directions for use of the New Channel:—

By Day.—After rounding the south end of Stewart Island two White Triangular Beacons will be seen on the sand bank to the north of Stewart Island; bring these ahead and slightly open to the westward, passing two Red Beacons to starboard and one black one to port, until abreast two White Triangular Beacons, which will be seen on Stewart Island, when haul to the westward bringing these marks into line astern on a bearing of S. 39° E. Continue so, passing two Black Beacons to port and three Red ones to starboard, until about midway between the third red beacon and Moonboom Island, when proceed as formerly. Three gauges showing the depth of water are placed, one opposite Fig-tree, one at Stewart Island, and one at Moonboom as formerly.

By Night.—Keep the Fig-tree Lights in line astern until another pair (red and white) to the northward of Stewart Island open out to starboard, when haul to the northward, bringing these lights ahead but slightly open to the westward; continue with them so until the Red and White Lights on Moonboom Island are brought into line, when steer for them, passing the front light on the port hand about a ship's length distant, then proceed as formerly.

Chart affected, 1030; Australia Directory, Vol. II.

JAPAN—Honshu—Rikuchu gulf.

Tairadate lighthouse—Fog signal established.

No. 137 (second publication).—The British Admiralty has given notice (No. 225 of 1904) that, on 20th February 1904, a fog siren, giving during thick or foggy weather *one blast* of *three seconds'* duration *every forty-two seconds*, would be established at Tairadate lighthouse.

Approximate position, lat. 41° 10½′ N., long. 140° 38½′ E.

This Notice affects the following Admiralty Chart:—Tsugaru strait, No. 2441: Also, List of Lights, part VI, 1904, No. 981; and Sailing Directions for Japan, Korea, &c, 1904, page 686.

AUSTRALIA, NORTH COAST—Torres strait.

Booby island—Reef reported to the northward.

No. 129 (third publication).—The British Admiralty has given notice (No. 201 of 1904) that the Master of the German S. S. *Varzin* reports that, when passing through Torres strait, his vessel, drawing 18½ feet, struck on a rock in a position from which Booby island bore S. 8° W., distant 3¾ miles.

The danger has been placed upon the Charts in the above position as "Varzin shoal. P.D."

Approximate position, lat. 10° 32½′ S., long. 141° 55½′ E.

(*Variation 4° Easterly in 1904.*)

This Notice affects the following Admiralty Charts:—Western approach to Torres strait, No. 447; cape Grenville to Booby island, No. 2354; Torres strait, No. 2375; Albany pass to Booby island, No. 437: Also, Australia Directory, vol. II, 1898, page 470.

KOREA, WEST COAST—Chemulpho approach.

Unreliability of lights during winter.

No. 130 (third publication).—With reference to Notice to Mariners No. 325, dated the 9th October 1903, issued by this office, stating that unwatched lights had been established on White rocks, North Watcher, Yo dol mi, and So Wolmi; the British Admiralty has given further notice (No. 205 of 1904) that it is reported, with reference to these lights, that in the very cold whether, sometimes prevailing in this locality during the winter months, the oil gas is frozen, and therefore these lights are less reliable than those ordinarily unwatched.

Approximate position, So Wolmi, lat. 37° 27¼′ N., long. 126° 35¼′ E.

This Notice affects the following Admiralty Chart:—Approaches to Chemulpho anchorage, No. 1870: Also, List of Lights, part VI, 1904, Nos. 829, 828, 827, 826; and Sailing Directions for Japan, Korea, &c., 1904, pages 57, 58, 59.

AUSTRALIA, SOUTH—Port Adelaide light.

Intended beacon light.

No. 131 (third publication).—The British Admiralty has given notice (No. 208 of 1904) that it is intended to establish a *green fixed* light, visible from a distance of 5 miles, on a black pile beacon to be erected in a depth of 11 feet off the southern point of the northern bank at the entrance of Port Adelaide river, at a distance of about 1½ cables N. 62° W. from the old lighthouse. During the erection of the beacon a barge and a pile driver, from which a *white fixed light* will be exhibited, will be moored in the position.

The exact position of the above beacon is not given.

Approximate position, old lighthouse, lat 34° 48′ S., long. 138° 28′ E.

Further Notice will be given when the light is established.

(Variation 5° Easterly in 1904.)

This Notice affects the following Admiralty Chart:—Port Adelaide, No. 1750: Also List of Lights, part VI, 1904, page 206; and Australia Directory, vol. I, 1897, pages 331 and 332.

AUSTRALIA, NORTH-WEST COAST—Port Hedland.

Light established.

No. 132 (third publication).—The British Admiralty has given notice (No. 209 of 1904) that a *white fixed* dioptric light of the 5th order, elevated 48 feet above high water, and visible in clear weather from a distance of 12 miles, has been established on the tidal signal flagstaff erected in the centre of the town of port Hedland; it has been placed on the Chart at a distance of 1¾ cables S. 26° W. from Lumsden beacon.

The light is obscured seaward when bearing to the eastward of S. 18° E.

Approximate position, lat. 20° 18½′ S., long. 118° 34¾′ E.

(Variation Nil in 1904.)

This Notice affects the following Admiralty Charts:—Bedout island to cape Cuvier, No. 1055; port Hedland, No. 1437: Also, List of Lights, part VI, 1904, page 195; Australia Directory, vol. III, 1895, page 272; and Revised Supplement, 1902, page 17.

AUSTRALIA, SOUTH COAST—Bass strait.

Pyramid rock.—Rock reported north-eastward.

No. 133 (third publication).—The British Admiralty has given notice (No. 210 of 1904) that the Master of the S. S. *Wakatipu* reports that when steering to the southward on 24th October 1903, after passing to the eastward of Deal island and just before Pyramid rock was sighted, his vessel, drawing 18 feet, bumped sharply on a sunken obstruction at 4-30 A.M., but no danger could be seen in any direction. No soundings appear to have been taken.

The Government of Tasmania has also given Notice, dated 31st December 1903, that five Masters of Ships have reported that a rock exists in this vicinity, but as the positions given by them differ, about 4 miles both in latitude and longitude, it is quite impossible to place it on the Charts with any degree of accuracy. "Rock reported hereabouts 1903" has, therefore, been inserted on the Charts at a distance of about 7 miles north-eastward of

Pyramid rock. Vessels are recommended to avoid this locality until it has been examined.

Approximate position, Pyramid rock, lat. 39° 49′ S., long. 147° 15′ E.

This Notice affects the following Admiralty Charts:—Port Phillip to Gabo island, No. 3169; Bass strait, No. 1695a: Also, Australia Directory, vol. I, 1897, page 556.

RED SEA, EASTERN SHORE.—Kamaran passage.

Alterations in buoys and beacons.

No. 134 (third publication).—The British Admiralty has given notice (No. 219 of 1904) that the following information, dated 29th February 1904, respecting the buoys and beacons in Cameron passage, has been received from Captain E J. W. Slade, M. V. O., H. M. S. *Diana*:—

New Buoys—

(*a*) A red buoy surmounted by a staff and triangle has been established in a depth of 4½ fathoms at low water to mark the extremity of the shoal extending from ras el Bayádh; it is situated with ras el Bayádh telegraph hut bearing S. 28° W., distant 3 cables, and ras el Yemmen telegraph hut N. 64° W.

(*b*) A black buoy surmounted by staff and ball has been established in a depth of 4 fathoms at low water to mark the extremity of the shoal extending from ras el Yemmen; it is situated with ras el Bayádh telegraph hut bearing S. 22° E., distant 4½ cables, and ras el Yemmen telegraph hut, N. 62° W.

(*c*) A red buoy surmounted by a staff and cylinder has been established in a depth of 5 fathoms at low water to mark the edge of the 5-fathoms contour line to the southward of ras el Bayádh; it is situated with ras el Bayádh telegraph hut bearing N. 37° E., distant 14½ cables, and ras el Yemmen telegraph hut North.

Buoys removed—

The two red buoys, situated at distances of 3¾ cables N. 27 E. and 5 cables North, respectively, from ras el Bayádh telegraph hut have been removed and are consequently expunged from the Chart.

Beacons:—

The small beacon 8 feet high, formerly situated close to the telegraph hut on ras el Yemmen, and a similar beacon formerly situated at a distance of 15 cables S. 15° W. from ras el Bayádh telegraph hut, do not now exist.

A very conspicuous blockhouse, 25 feet high and 128 feet above high water, has been erected about 5½ miles north-eastward of ras el Bayádh; it is situated at a distance of 3½ cables S. 26° E. from Jebel Mahasin △.

Approxmate position, ras el Bayádh telegraph hut, lat. 15° 15¼′ N., long. 42° 35′ E.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

[Fifth Publication.]

No. 20.—Notification.—It is hereby notified for general information that the Lieutenant-Governor of Bengal proposes, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force on the Calcutta Canals and Tolly's Nala with effect from 1st July 1904.

D. B. HORN,
Secy. to the Govt. of Bengal.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala":—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14. In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the deges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18. In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26. For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

27. No boats will be allowed to remain between the Dwarf walls of the entrance channels to the Dhappa and Chitpur Locks.

No. 55Marine.—Notification.—The following draft of rules which it is proposed to make under the Indian Petroleum Act, 1899, is published for the information of persons likely to be affected by the rules.

The draft will be taken into consideration on or after the 11th July, 1904, and any objections or suggestions which may be received by the undersigned before that date will be duly considered:—

Draft rules.

In exercise of the power conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to make the following additional rules to regulate the granting of licenses to possess dangerous petroleum (otherwise than in bulk) in or near the town of Calcutta, and to direct that they be inserted after rule 4 in the rules published under Notification No. 24 (Marine), dated the 15th March, 1904:—

"4A. Notwithstanding anything in rules 3 and 4, licenses for the possession of dangerous petroleum (otherwise than in bulk) within or near the town of Calcutta shall not be granted unless the following special conditions are imposed, namely:—

(*a*) the quantity of petroleum covered by a license shall not exceed 3,000 gallons;

(*b*) the building in which the petroleum is to be stored must be constructed of masonry, with a terraced, tiled or iron roof, and with a tiled, paved or earthen floor;

(*c*) the doorways and other openings of such building must be built up to such a height above the level of the road or street, or the floor of such building must be sunk to such a depth below the level of the road or street, that the petroleum stored in it cannot flow out from the building in case of its escape from the receptacles in which it is contained; *or* the building itself must be surrounded with a masonry wall sufficiently high to contain all the petroleum stored in the building in case of its escape from the building; *or* a combination of these methods may be adopted;

(*d*) there must be a clear open space of at least 150 feet round such building;

(*e*) the drums or other receptacles in which the petroleum is contained must fulfil the following conditions, namely:—

(*i*) they must be of gas-tight iron or steel, of at least $\frac{1}{8}$th of an inch in thickness, containing not more than 10 gallons and fitted with well-made filling holes and well-fitting screw plugs, *or* of gas-tight tinned sheet-iron, containing not more than 10 gallons, and fitted with screw caps with metal air-tight under caps or fitted with well-fitting screw plugs, and, if of the latter description, they must be packed in strong wooden cases, the thickness of the wood to be not less than $\frac{1}{2}$ an inch;

(*ii*) they must be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident, to be broken or become defective, leaky or insecure in transit;

(*iii*) the nature of the contents, and also the words "highly inflammable," must be distinctly marked on each; and

(*iv*) an air space of at least $\frac{1}{10}$th its capacity must be left in each drum or other receptacle at the time of filling.

(*f*) no smoking, or light or fire of any description, shall be permitted at any time within or near any building licensed under this rule;

(*g*) no drum or other receptacle containing dangerous petroleum shall be opened, or the petroleum drawn off, within or near any building licensed under this rule.

"4B. Nothing in these rules shall affect the rules relating to the grant of licenses to possess dangerous petroleum for use in motor cars or cycles."

D. B. HORN,
Secy. to the Govt. of Bengal.

The 10th May 1904.

No. 56Marine.—The following bye-laws, which have been framed by the Commissioners of the Port of Calcutta under sections 126 and 127 of the Calcutta Port Act, 1890, for vessels discharging cargo at the Jetties, are published for general information. They will be taken into consideration on the expiry of a month after their publication in the Gazette, and the Lieutenant-Governor will be pleased to consider any suggestions or observations which may be made regarding them by any person within that period.

D. B. HORN,
Secy. to the Govt. of Bengal.

Proposed bye-laws for vessels discharging cargo at the Jetties framed by the Commissioners under sections 126 and 127 of the Calcutta Port Act, 1890.

1. No vessel shall remain berthed at the Jetties longer than is necessary for the discharge of her cargo.

2. If any vessel shall not have completed the discharge of her cargo at the expiration of ten working days after first coming alongside the Jetties, and if there shall be any other vessel then waiting for a berth, it shall be lawful for the Commissioners, or the Harbour Master, to remove such first-mentioned vessel to moorings in the stream in order to provide accommodation at the Jetties for the vessel so waiting as aforesaid.

3. The allotment of a fresh berth at the Jetties for any vessel so removed as aforesaid shall be at the discretion of the Commissioners; but as a general rule such vessel will be accommodated next in order after all other vessels lying off the Jetties at the time of her removal.

4. Masters and owners of vessels shall obey the directions of, and shall offer no obstruction to, the Harbour Master or Jetty Officers in mooring, unmooring, moving or removing vessels from the Jetties in pursuance of the foregoing bye-laws.

5. Any person committing an infringement of any of the foregoing bye-laws shall be liable to a fine not exceeding Rs. 500, and when the breach is a continuing breach, to a further fine, which may extend to Rs. 200, for every day after the first during which the breach continues.

The 10th May 1904.

No. 57Marine.—Mr. I. S. Wells, Acting Branch Pilot, is confirmed in that grade, with effect from the 6th June 1904, *vice* Mr. J. Christie, Senior Branch Pilot, who has been permitted to retire from the Bengal Pilot Service from that date.

The 10th May 1904.

No. 58Marine.—It is hereby notified for general information that Hongkong is declared to be infected with plague, and that the regulations for the prevention of the introduction of plague by sea issued by Government will be enforced in the ports of Orissa and in the port of Chittagong against vessels arriving from that place.

D. B. HORN,
Secy. to the Govt. of Bengal.

The 10th May 1904.

No. 8 Marine.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the purpose of a Railway siding to Messrs Bulloch Brothers and Company's bulk-oil installation in the villages of Nalsa and Gosaildinga, police-station Town Chittagong, zilla Chittagong, it is hereby declared that for the above purpose two pieces of land measuring, more or less, 2·71 kanis, or 1 acre 12 poles of standard measurement, bounded as follows, viz :—

The first piece measuring, more or less, 1 kani, covered by plots Nos. 110, 111 and 112 of the recent cadastral survey map of mauza Nalsa, bounded on the north, south and west by the land acquired by the Burma Company, and on the east by Nishi Chandra's land,

The second piece measuring 1·71 kanis, covered by plots Nos. 127 and 129 of mauza Nalsa, and plots Nos. 2599 and 2600 of mauza Gosaildinga, bounded on the north by Abdul Jabbar's land, on the south by roadside ditch, on the east by the land of Etimali, and on the west by the land acquired by the Burma Company,

are required within the aforesaid villages of Nalsa and Gosaildinga.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Chittagong.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Nadia, will be put up to sale at the Nadia Collectorate on Friday, the 13th May 1904, corresponding with 31st Baisakh 1311 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidders above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Published in FOUR SERIES, viz.:

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Tripod on diamond	19	0

AUSTRALIA—WIDE BAY BAR.

Directions for crossing the bar.

No. 144 (first publication).—The Portmaster, Brisbane, has given notice (No. 6 of 1904) that, when crossing the Wide Bay Bar, the Square Beacons must now be kept open twice their own to the northward, keeping them so until the Inskip Lead is also open the same distance to the westward, then proceed as before. Vessels may borrow slightly to the north and west of these lines.

Owing to the recent bad weather experienced the Bar has again commenced to shift in a northerly direction, and mariners are requested to exercise the utmost caution when using the Bar.

Charts affected, Nos. 1030 and 1068; Australia Directory, Vol. II.

JAPAN—NAIKAI (INLAND SEA)—HIROSHIMA BAY.

Yakataishi rock—Light established.

No. 145 (first publication).—The British Admiralty has given notice (No. 247 of 1904) that, on 15th February 1904, a *white fixed* light, elevated 19 feet above high water, and visible in clear weather from a distance of 8 miles, was established on the stone conical beacon,

painted red, erected on a rock named Yakataishi near the northern extremity of Yeda sima. The light is unwatched, and has a light power of 80 candles.

Approximate position, lat. 34° 17¾′ N., long. 132° 29′ E.

This Notice affects the following Admiralty Chart:—Naikai, No. 2875: Also, List of Lights, part VI, 1904, No. 918a; and Sailing Directions for Japan, &c., 1903, page 486.

RED SEA, WESTERN SHORE—Asab bay.

Rubattino channel—Leading beacons removed.

No. 146 (first publication).—The British Admiralty has given notice (No. 249 of 1904) that, in consequence of the alteration which has taken place in the depths in Rubattino channel, Asab bay, the leading beacons erected on the small islet between Huiheb and Haleb islands have been removed.

Approximate position, lat. 12° 57½′ N., long. 42° 54′ E.

This Notice affects the following Admiralty Chart:—Plan of port Asab on Chart of Red sea, No. 8e; and Chart No. 143, Jebel Teir to Perim island: Also, Red Sea, etc., Pilot, 1900, page 228.

PACIFIC OCEAN, SOUTH—Royal Company's islands.

Non-existence of, reported.

No. 147 (first publication).—The British Admiralty has given notice (No. 252 of 1904) that on old Charts of the South Pacific ocean, in the area south of Australia, a group of islands, named Royal Company's islands, are marked as existing in lat. 50° 20′ S., long. 143° 0′ E. They have consequently been inserted for many years in the Admiralty publications.

These islands are not mentioned in any Sailing Directions, the original report of their existence cannot be traced, nor have they apparently been seen by any passing vessel.

Since 1890 the Hydrographic Department of the Admiralty has been collecting data showing where ice and icebergs may be met with in the Southern oceans, and this has necessitated plotting the tracks of many vessels passing south of Australia, several of which have passed over, or close to, the position assigned to the Royal Company's islands without seeing them or any sign of land near them:—thus in 1892 the *Pakeha* passed one mile north of their assigned position; in 1893 the *Crusader* passed 5 miles north of them; in 1894 the *Rangatira* passed 15 miles north of them; in 1895 the *Maori* passed 2½ miles south, and the *Rangatira* 15 miles south of them; in 1899 the *Rangatira* passed one mile south of them, and the *Matatua* 2 miles north; in 1900 the *Matatua* passed over the position in which they are supposed to be situated; in 1901 the *Karamea* passed 40 miles south of them, and in 1902 the *Pakeha* passed 12 miles south of them.

As no certain information is available as to why these islands were originally placed on the Charts, and as it is evident from the tracks plotted that no land exists in the locality in which they are marked on the Charts, they have now been expunged from the Admiralty publications.

This Notice affects the following Admiralty Charts:—Atlantic and Indian oceans, etc., No. 2483; Pacific ocean, Nos. 2683 and 788.

AUSTRALIA, WEST—Geographe bay.

Cape Naturaliste—Light established.

No. 148 (first publication).—With reference to Notice to Mariners No. 356, dated 31st October 1903, issued by this office, the British Admiralty has given further Notice (No. 253 of 1904) that, on 15th April 1904, a *white group flashing* dioptric light showing groups of two flashes *every ten seconds*, thus:—flash, *one-tenth of a second*, eclipse, *two and six-tenths of a second*, flash, *one-tenth of a second*, eclipse, *seven and two-tenths of a second*, will be established in a grey stone tower, 62 feet high, constructed in a position about a mile S. 67° E. from the extremity of cape Naturaliste. The light will be elevated 404 feet above high water and visible in clear weather from a distance of 29 miles; it will be obscured over the land from the bearing of N. 20° E., through north, to N. 63° W.

Approximate position, lat. 33° 32′ S., long. 115° 2½′ E.

(*Variation 4° Westerly in 1904.*)

This Notice affects the following Admiralty Charts:—Indian ocean, No. 748b; Australia, No. 2759b; Champion bay to cape Naturaliste, No. 1033; cape Naturaliste to King George sound, No. 1054: Also, List of Lights, part VI, 1904, No. 1071a; and Australia Directory, vol. III, 1895, page 395.

AFRICA, NORTH-EAST—Red sea, western shore.

Massawa channel—Intended alteration in lighting—Buoy.

No. 149 (first publication).—The British Admiralty has given notice (No. 254 of 1904) that it is intended to make the undermentioned alteration in the lighting of the Massawa channel:—

1. Difnein island. The white fixed light on this island will be replaced by a *white flashing* light *every five seconds*, with a *red* sector, exhibited from an iron tower 114 feet high.

   Approximate position, lat. 16° 37′ N., long. 39° 18½′ E.

2. Madote island. A *white fixed* light, visible from a distance of 10 miles, will be established on a framework support, 35 feet high, now being constructed on this island.

   Approximate position, lat. 15° 35′ N., long. 39° 44½′ E.

3. Shumma island. The white fixed light on this island will be increased in power, and be visible from a distance of 16 miles; it will be established on an iron tower 72 feet high.

   Approximate position, lat. 15° 31¼′ N., long. 39° 59′ E.

4. Shab Shakhs. It is intended to establish a *white flashing* light *every five second* on the extremity of this reef.

   Approximate position, lat. 14° 40′ N., long. 41° 6½′ E.

5. Ras Mudir. It is intended to establish a *fixed white* light, visible about 16 miles from an iron tower, 72 feet in height, on Ras Mudir, south side of entrance to Mussawa.

   Approximate position, lat. 15° 37′ N., long. 39° 27½′ E.

Also, that the black can buoy marking Mujunia reef has sunk, and will not be replaced.

Approximate position, lat. 15° 36½′ N., long. 39° 41½′ E.

Further notice will be given when these alterations have been made.

This Notice affects the following Admiralty Charts:—Massawa channel, No. 164; Jebel Tier to Perim, No. 143; Massawa harbour, No. 460: Also, List of Lights, part V, 1904, Nos. 1363, 1367, page 261; part VI, Nos. 156, 152, page 25; and Red Sea, &c., Pilot, 1900, Nos. 199, 190, 206, 197.

NEW ZEALAND—North island, west coast.

Kaipara bar—Channel altered.

No. 150 (first publication).—The British Admiralty has given notice (No. 257 of 1904) that the black and white beacons on North sand spit, Kaipara harbour, in line, now lead over the shoalest part of the bar, they will therefore be removed.

A new channel half a mile wide, in which there are depths ranging from 4¼ to 7 fathoms at low water, has opened out through North spit; it is intended to erect leading beacons to mark this channel, but in the meantime it may be used by keeping a large grassy patch (the only one in the vicinity), situated about six-tenths of a cable S. 22° E. from the lighthouse, in line with the lighthouse flagstaff N. 52° E.; this will lead through the new channel in a depth of not less than 4¼ fathoms at low-water ordinary springs. The soundings being irregular the sea will probably break heavily in westerly gales in this channel.

Approximate position of lighthouse, lat. 36° 23′ S., long. 174° 8½′ E.

(*Variation 13° Westerly in 1904.*)

This Notice affects the following Admiralty Chart:—Kaipara harbour, No. 2614: Also, New Zealand Pilot, 1901, page 244.

ARABIA, SOUTH COAST—Gulf of Aden, north shore.

Makalleh bay.—Erection of a Watch Tower, Sultan's Residency and other buildings.—Disappearance of the Flag-staff, and ruined Fort on Ras Marbat.

No. 138 (second publication).—The Bombay Government has given notice (No. 49 of 1904) that information, dated 5th April, has been received from the Officer Commanding R. I. M. S. *Dalhousie* that an additional square stone Watch Tower is erected, bearing N. 40½° W. (true) 1 mile 5¾ cables from Ruined Fort on Ras Marbat.

An imposing looking Residency for the Sultan is now being erected and nearly completed (March 1904) with other buildings in the course of construction to the westward of the town and are connected by a good road.

The Flag-staff shewn in the centre of town does not exist.

Ruined Fort on Ras Marbat is not conspicuous from the anchorage, being now almost entirely in ruins.

This Notice affects the following Admiralty Chart:—Anchorages on the coast of Arabia, Makalla Bay, No. 10; also Red Sea and Gulf of Aden Pilot, fifth edition, 1900, page 426.

JAPAN, SOUTH COAST—Honshu (Nipon).

Mura and Goza harbours—Rocks in approaches.

No. 139 (second publication).—The British Admiralty has given notice (No. 229 of 1904) that on a recent Japanese Chart the undermentioned dangers appear in the approaches to Mura and Goza harbours:—

Mura harbour.

A rock with a depth of 1½ fathoms over it, situated with Kadzura sima summit (222 feet) bearing east, distant 2 cables, and Kohara sima summit N. 37° E.

Goza harbour.

a. A shoal, named Mutsuna sho, with a depth of 2½ fathoms over it, situated with the summit of Goza saki (310 feet) bearing S. 59° W., distant 12 cables, and Clump (233 feet) N. 45° W. This shoal extends for a distance of one cable S. 16° W. from the above position, the depth being 2½ fathoms on its southern limit.

There is a shoal head, with a depth of 4½ fathoms, 1½ cables S. 53° E. from the position of the above 2½ fathoms.

b. A shoal, named Kohira sho, with a depth of one fathom over it, situated with Goza saki summit bearing S. 61° W., distant 16 cables, and Clump (233 feet) N. 56° W. This shoal extends about one cable S. 5° W. from the above position, the depth on its southern limits being 1¾ fathoms, but as defined by the 5-fathom contour line it extends nearly 3 cables in the same direction.

c A shoal, named Sato ne, with a depth of one fathom over it, situated with Goza saki summit bearing S. 58° W., distant 15½ cables, and Clump (233 feet) N. 56° W.

From this position the shoal extends for a distance of 1¼ cables N. 80° W., there being a depth of 2¼ fathoms on its western edge.

d. The 5 fathom contour line extends from the coast southward of Hamagema ura across the entrance to a distance of 8½ cables S. 8° E. from the Clump (233 feet).

Approximate position, Goza saki summit, lat. 34° 16¼′ N. long. 136° 45¼′ E.

(*Variation 4° Westerly in 1904*)

A new edition of Chart No. 994 will be issued when it has been corrected from the Japanese Chart recently received.

This Notice effects the following Admiralty Chart:—Mura and Goza harbours, No. 994: Also, Sailing Directions for Japan, etc., 1904, pages 340, 341.

PACIFIC OCEAN—Philippine Islands—Luzon, south coast.

Port Sorsogon.—Light established.

No. 140 second publication).—The British Admiralty has given notice (No. 238 of 1904) that, on 5th February 1904, a *white fixed* lantern light, elevated 120 feet above high water, and visible from a distance of 6 miles, was established on a tree situated on the north-western extremity of Bagatao island, port Sorsogon entrance.

Approximate position, lat. 12° 49¾′ N., long. 123° 47¾′ E. on Chart No. 2395.

This Notice affects the following Admiralty Charts:—No. 2577, St. Barnardino and Mindoro straits; plan of Port Sorsogon on Chart No. 2395; Also, List of Lights, part VI. 1904, page 105; and Eastern Archipelago, part I., 1902, page 338.

PERSIAN GULF—Bushire to Muscat.

Wreckage westward of Ras-al-Mutaf.

No. 141 (second publication).—The Bombay Government has given notice (No. 41 of 1904) that the Master of S.S. *Kola* reports that during his voyage from Bushire to Muscat, he passed in Latitude 27° 42′ N., Longitude 51° 16′ E. and 19 fathoms of water a mast step uppermost and appearing to be attached to sunken wreckage.

It showed 4 feet out of water and about 1½ feet in diameter.

This Notice affects the following Admiralty Chart:—Persian Gulf, northern portion, etc., No. 2837b; also Persian Gulf Pilot, 1898, page 258.

BAY OF BENGAL—Hooghly river.

Coweolly light increased in intensity.

No. 142 second publication).—The Commissioners of the Port of Calcutta have given notice, dated 25th April 1904, that on and after the first day of November 1904, the existing fixed white light exhibited from a white tower 62 feet above high water, 2 miles S.S.W. of Kedgeree point, will be increased in intensity from about 500 standard candles to 1,250 standard candles or 1¼ lighthouse units.

The new apparatus will be dioptric; but the character of the light will remain unchanged. The light will be visible between the bearings of N. 13° E. through North to N. 83° W.

The light will be visible in clear weather from a distance of 13 nautical miles.

Note.—The bearings are magnetic, and those concerning the visibility of lights are given from seaward.

Position.—Lat. 21° 50′ 10″ N. long 87° 56′ 9″ E.

This notice affects the following Admiralty Charts:—River Hooghly, Calcutta to Saugor Point, No. 136; the Sandheads, False Point to Matlah river, No. 814; Bay of Bengal, No. 70; India, Coconada to Bassein river, No. 829; also List of Lights, Part VI, 1904, No. 353.

AUSTRALIA—Great sandy strait.

Stewart island flats—Moonboom lead altered and directions for use of the new channel given.

No. 136 (third publication.)—The Port Master, Brisbane, has given notice (No. 4 of 1904) that on and after the 19th March, in consequence of a Deeper Channel having opened up at Stewart Island Flats, the Moonboom Lead will be altered so as to lead in 8 feet at L W.S. across the shoal off the north end of Stewart Island. A small pair of leading beacons will also be erected at the eastern end of this lead (on Stewart Island).

The following are directions for use of the New Channel:—

By Day.—After rounding the south end of Stewart Island two White Triangular Beacons will be seen on the sand bank to the north of Stewart Island; bring these ahead and slightly open to the westward, passing two Red Beacons to starboard and one black one to port, until abreast two White Triangular Beacons, which will be seen on Stewart Island, when haul to the westward bringing these marks into line astern on a bearing of S. 39° E. Continue so, passing two Black Beacons to port and three Red ones to starboard, until about midway between the third red beacon and Moonboom Island, when proceed as formerly. Three gauges showing the depth of water are placed, one opposite Fig-tree, one at Stewart Island, and one at Moonboom as formerly.

By Night.—Keep the Fig-tree Lights in line astern until another pair (red and white) to the northward of Stewart Island open out to starboard, when haul to the northward, bringing these lights ahead but slightly open to the westward; continue with them so until the Red and White Lights on Moonboom Island are brought into line, when steer for them, passing the front light on the port hand about a ship's length distant, then proceed as formerly.

Chart affected, 1030; Australia Directory, Vol. II.

JAPAN—Honshu—Rikuoku gulf.

Tairadate lighthouse—Fog signal established.

No. 137 (third publication).—The British Admiralty has given notice (No. 225 of 1904) that, on 20th February 1904, a fog siren, giving during thick or foggy weather *one blast* of *three seconds'* duration *every forty-two seconds*, would be established at Tairadate lighthouse.

Approximate position, lat. 41° 10½′ N., long. 140° 38½′ E.

This Notice affects the following Admiralty Chart:—Tsugaru strait, No. 2441: Also, List of Lights, part VI, 1904, No. 981; and Sailing Directions for Japan, Korea, &c, 1904, page 686.

Dated Darjeeling, the 2nd May 1904.

RESOLUTION.

READ—

The Report on the Administration of the Jail Department for the year 1903.

Reports for the years 1901 and 1902 and the Resolutions of Government recorded thereon.

Major W. J. Buchanan, I.M.S., was in charge of the Jail Department from the 1st of January till the 17th of April 1903, from which latter date Major R. J. Macnamara, I.M.S., held charge until the end of the year under review. Major Macnamara has submitted the Report for the year.

2. The total population of the jails of Bengal, which amounted to 21,030 on the 1st of January 1903, was decreased by the release of 3,334 prisoners on

the occasion of the Coronation of the King-Emperor, but it rose steadily during the year, although admissions were fewer by over two thousand than those of the preceding year, and stood at 19,907 at the end of the year.

3. The health of the prisoners during the year 1903 was in general good; and the death-rate, which stood for all the jails at 23·5 per mille against a death-rate of 33·33 per mille for the whole population of Bengal, was lower than any rate recorded during the last ten years, except those for the years 1898 and 1899. To the generally satisfactory statistics of health of the jail population the returns of the Barisal Jail furnish a marked exception. As noticed in the Resolution on the report for the year 1902, this jail has for some years had a very bad record of mortality, and for the year 1903 it shows a ratio of 90·6 deaths per mille, which is in excess even of previous records, and which, even after allowing for the bad health of many of the prisoners on admission, is an alarming rate. The Lieutenant-Governor has required the Inspector-General to submit a special report as to the steps which have been taken during the past year and which are proposed to improve the health of the prisoners in this jail; and the Inspector-General has reported that the two main defects which have been factors in the excessive mortality have been, first, overcrowding and, secondly, bad water-supply. Not only has this jail been frequently overcrowded so far as regards accommodation in wards, but the jail is also "site crowded," *i.e.*, the area within the walls is insufficient. The water-supply for the jail has been taken sometimes from a reserved tank and sometimes from the river. The river supply is considered the better, and should alone be used. Sanction has recently been given to enlarge the enclosed area of the jail; a new hospital has been built, and it is hoped that a municipal water-supply for the town and jail will be arranged. It is quite clear, however, that the state of this jail requires the very close attention of the Inspector-General and the local officers. The Inspector-General is evidently in doubt whether all the causes of the present high mortality in this jail have been ascertained and whether they are removable. The Lieutenant-Governor has requested the Inspector-General of Civil Hospitals, in consultation with Major Buchanan, and if necessary with the Sanitary Commissioner and Sanitary Engineer, to conduct a careful inquiry into the causes of mortality in this jail.

4. In general it is to be noticed, as was noticed in last year's Resolution, that the accommodation available in Bengal jails and subsidiary jails is insufficient, and specially in the case of under-trial prisoners. The expenditure incurred during the year on jail buildings amounted to Rs. 3,03,306, namely, Rs. 2,52,116 on original works and Rs. 51,190 on repairs, and it is hoped that a larger sum will be spent under this head during the current year. The want of accommodation has led to the mixing up of convicts and under-trial prisoners in some jails, to overcrowding, and to the absence of suitable quarantine arrangements where plague is prevalent. The Lieutenant-Governor concurs with the Inspector-General in his view of the importance of this matter. The Inspector-General has furnished lists grouping the required works in order of urgency, and His Honour hopes that it may be possible to give effect to a programme of extension and improvement in the course of the next two or three years.

5. The Lieutenant-Governor has recently consulted the Inspector-General as to the feasibility of abolishing a large number of the subsidiary jails so far as regards the accommodation in them, even for short periods, of convicts. It is especially in the subsidiary jails that overcrowding is too common in the case of under-trial prisoners, and it is hoped that a change of system, so far as may be found possible, under which convicts will be sent immediately on sentence to the district or central jail, will give substantial relief in the accommodation of under-trial prisoners. Such a reform will also, it is hoped, result in more effective discipline and providing suitable labour for convicts. Difficulties will no doubt be found in giving full effect to this measure in the case of some of the subsidiary jails on account of their distance from head-quarters and because police escorts will not always be promptly forthcoming; but in the main it is believed that the reform contemplated is practicable and desirable, even when it may involve additional expenditure.

6. Major Macnamara has offered some interesting remarks on the subject of the rice diet which is in general use in Bengal jails, but the Lieutenant-Governor is not convinced of the soundness of his conclusion that prisoners are "largely overfed with rice." It is to be remembered that in the districts of Bengal Proper rice is the staple food of the people; and the substitution of *makai* or any other cereal in the jails of these districts might not be expedient. The instance given by the Officiating Inspector-General of a change in the health of the prisoners of the Daltonganj Jail, which was coincident with the partial substitution of *makai* for rice in the diet scale, is not conclusive, because in fact the inhabitants of the Palamau district largely eat *makai*. At the same time it undoubtedly illustrates the necessity for, or advantages of, careful attention to the matter of diet. On the whole, the figures relating to increase and decrease of weight of convicts which are given in an Appendix to the Report are not unsatisfactory. From this statement it appears that out of 42,329 convicts discharged during the year, 10,191 neither lost nor gained weight, 26,219 gained weight, and only 5,919 lost weight. The Lieutenant-Governor leaves it to Major Buchanan, who has returned to duty, to make such recommendations to Government as he may think proper on this important subject of diet of prisoners after consideration of the suggestions made by his *locum tenens*.

7. Under the head of Labour and Cash Earnings the Lieutenant-Governor notices that there was a satisfactory increase of average profit per head of those sentenced to labour from Rs. 30-12 in 1902 to Rs. 31-9 in 1903. The net earnings in central jails per head of average strength of convicts ranged from Rs. 116-1 in the Presidency Jail to only Rs. 10-1 in Rampur Boalia. The differences require the careful attention of Superintendents. The Inspector-General has been invited to place before Government, if he thinks proper, the purport of his correspondence with the Military authorities on the subject of the full use by them of the jail factories; and the Public Works Department will enquire into the complaint that convict labour was not employed fully on the construction and repairs of jail buildings in Hazaribagh.

8. There was a decrease in the total numbers of offences and punishments of convicts during the year, but a slight increase in the percentage of punishments to average number of convicts, which was apparently due to the number of releases of short-term prisoners in connection with the Coronation rejoicings. As suggested in last year's Resolution, a scheme of remission of sentences by days to take the place of the record of marks was submitted during the year by Major Macnamara, but its consideration was postponed till the return from leave of Major Buchanan, who originally proposed this change. The Lieutenant-Governor awaits Major Buchanan's opinion on the subject.

9. The Lieutenant-Governor again notices the unsatisfactory state of the jail warder force. It was suggested in last year's Resolution that the leave rules for these officers should be made more liberal with special reference to the fact that most of the warders come from up-country districts. It is understood, however, that the leave difficulties are principally due to the want of a reserve of warders, and the Lieutenant-Governor will be prepared to consider proposals for the necessary increase of strength to enable leave to be more freely given.

10. The average period of detention of under-trial prisoners, the Lieutenant-Governor regrets to observe, was in excess of the figures for the preceding year in spite of the smaller number of admissions. Enquiries must be made by Commissioners in the case of those jails and subsidiary jails which show the most unsatisfactory results; but this matter is one which demands constant attention from Commissioners and District Magistrates throughout the year. Inspections of subsidiary jails by the Subdivisional Officers were more regularly made than in the preceding year, but explanations will be required from the Subdivisional Officers of Cox's Bazar and Samastipur as to the insufficient number of visits paid by them to the subsidiary jails under their charge.

11. The Lieutenant-Governor notices commendations bestowed by the Officiating Inspector-General upon officers of the Department and thanks

Major Macnamara for the zeal with which he discharged his duties and for an interesting report.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Jails for information and guidance.

Ordered also that a copy of this Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Chief Secy. to the Govt. of Bengal.

RECOMMENDATION TO BE MADE BY THE DISTRICT BOARDS OF THE DACCA DIVISION FOR THE NOMINATION OF A MEMBER TO THE BENGAL LEGISLATIVE COUNCIL.

No. 804A.—D.

RESOLUTION.

APPOINTMENT DEPARTMENT.

Dated Darjeeling, the 4th May 1904.

THE seat in the Bengal Legislative Council of the Hon'ble Maulvi Seraj-ul-Islam, Khan Bahadur, who was nominated as the representative of the District Boards of the Chittagong Division, will be vacant on the 28th July 1904. On the occurrence of the vacancy caused by the expiry on the 19th August 1903 of the term of office of the Hon'ble Babu Chaturbhooj Sahay, who represented the District Boards of the Patna Division, it became the turn of the District Boards of the Dacca Division, in the rotation sketched in paragraph 5 of the Resolution of this Government No. 1553J., dated the 25th March 1893, to exercise the privilege of recommending a candidate to fill the seat to be so vacated. For special reasons, however, which were set forth in the Resolution of this Government, No. 1194A.—D., dated the 1st June 1903, the Lieutenant-Governor decided to invite the District Boards of Chota Nagpur, instead of those of the Dacca Division, to submit a recommendation for filling the vacancy on that occasion. For the purposes of filling the vacancy which will occur on the expiry on the 28th July next of the Hon'ble Maulvi Seraj-ul-Islam Khan Bahadur's term of office, return will be made to the rotation laid down in the Resolution of 1893; and the District Boards of the Dacca Division will accordingly be invited to exercise the privilege of recommendation on this occasion. The necessary notification will be published in the *Calcutta Gazette*, specifying the District Boards of the Dacca Division as the group of Boards on whose recommendation the Lieutenant-Governor will make a nomination to the seat. Each District Board will elect one representative only, and he will be entitled to exercise all the votes of the body which he represents.

2. The following statement shows the District Boards which will send delegates to vote for a person to be recommended for the vacant seat, and the number of votes assigned to them according to the scale shown in paragraph 5 of the Resolution of this Government No. 2307A., dated the 31st March 1897.

The ordinary income taken is that for 1902-1903:—

Division.	District Board.	Ordinary income.	Number of votes to be recorded by the representatives.
		Rs.	
Dacca ...	Dacca ...	1,55,207	3
	Mymensingh ...	2,95,889	6
	Faridpur ...	95,729	2
	Backergunge ...	2,66,667	5

3. Under Rule IV of the Regulations framed by the Governor-General in Council with the approval of the Secretary of State under section 1 (4) of the Indian Councils Act, 1892, for Bengal, the Lieutenant-Governor now desires that the Commissioner of the Dacca Division will at once address the Chair-men of the District Boards enumerated in the above list, requesting them to convene a special meeting of their Board at which one member of the Board should be selected to represent them for the purpose of making the recommendation for the seat in Council. The name of the representative so selected must be reported at once by the Chairman to the Commissioner of the Division.

4. The period of three months laid down in Rule VII of the Regulations as that within which a recommendation shall be made to the Lieutenant-Governor will run from the date on which the Commissioner of the Division issues his request to the Chairmen of the District Boards.

5. As soon as the representatives have been selected, they will be called upon by the Commissioner of the Division to meet together on an early and convenient date, with special reference to the limit of time imposed by Rule VII of the Regulations, and at such convenient place as he may specify, for the purpose of electing, by a majority of votes, a person whom they will recommend to the Lieutenant-Governor to be nominated as a member of the Council. The names of all candidates put forward at such meeting shall be duly proposed by one of the representatives present. The election shall be by ballot, and the person elected must obtain a majority of the votes of the representatives present. If on the occasion of the first ballot an absolute majority is not obtained, the name of the candidate who obtains the least number of votes shall be withdrawn from the election, and another ballot shall then be held for the remaining candidates, and so on, until an absolute majority is obtained. In the event of a tie occurring at any stage, lots shall be drawn.

6. The electoral representatives present at this meeting shall elect one of themselves to be Chairman, and he shall preside and be responsible for the fair and proper exercise of the ballot vote.

7. The Chairman of the meeting shall without delay report to the Commissioner of the Division the name of the person elected, with the number of votes obtained, and any other information which it may appear desirable to communicate, and on behalf of the meeting shall recommend to the Lieutenant-Governor the nomination to the Council of the person so elected. The Commissioner shall submit the report from the Chairman of the meeting, with any observations he may wish to add, to the Chief Secretary to Government, by whom the recommendation will be submitted to the Lieutenant-Governor.

8. Attention is drawn to the following Rule VI of the Regulations which have been framed by the Governor-General in Council with the approval of the Secretary of State:—

VI —It shall be a condition in the case of any person to be recommended by a Municipal Corporation, or group of Municipal Corporations, that he shall be a person resident within the Municipality or the district in which it is situated, or in some one of the municipalities constituting the group or of the districts in which they are situated. A similar condition shall also apply to persons to be recommended by District Boards.

Explanation.—A person is not "resident" within the meaning of this rule unless he has a place of residence in the locality concerned, and such practical connection with that locality as qualifies him to represent the inhabitants thereof.

If at any time the question is raised whether a person proposed for election is "resident" within the meaning of this rule, the question shall be referred to, and decided by, the Local Government, whose decision shall be final.

Under this rule it is not necessary that the person recommended should be a member of any District Board concerned, but he must be resident within the Division from which the recommendation is made. Subject to this condition, the rules declare no limit of qualification, and it is left to the representatives to recommend a person under Rule V (*c*) according to the majority of their votes.

9. It is desirable that the subsidiary arrangements now sanctioned shall, as far as possible, be given effect to by the District Boards concerned with the minimum of official interference. The Divisional Commissioner and the District Magistrates will, of course, afford any assistance which may be required, and will do their utmost to facilitate the smooth working of the elections; but Government officers are forbidden to take part, directly or indirectly, in the election by canvassing, influencing votes, or otherwise interfering with the free choice of the District Boards. No indication should be given by any official member of any of the District Boards concerned as to the manner in which he himself intends to vote.

ORDERED that a copy of this Resolution be furnished to the Commissioner of the Dacca Division for information and guidance, and for communication to the District Boards in his Division.

Ordered also that a copy be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

W. C. MACPHERSON,

Offg. Chief Secy. to the Govt. of Bengal.

The average fall of the corresponding period for 24 years, Surveyor-General's Office	5;68

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; <, lightning, / strong wind; K, thunderstorm.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala":—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14 In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18. In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26. For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

27. No boats will be allowed to remain between the Dwarf walls of the entrance channels to the Dhappa and Chitpur Locks.

[Second Publication.]

The 10th May 1904.

No. 55Marine.—Notification.—The following draft of rules which it is proposed to make under the Indian Petroleum Act, 1899, is published for the information of persons likely to be affected by the rules.

The draft will be taken into consideration on or after the 11th July, 1904, and any objections or suggestions which may be received by the undersigned before that date will be duly considered:—

Draft rules.

In exercise of the power conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to make the following additional rules to regulate the granting of licenses to possess dangerous petroleum (otherwise than in bulk) in or near the town of Calcutta, and to direct that they be inserted after rule 4 in the rules published under Notification No. 24 (Marine), dated the 15th March, 1904:—

"4A. Notwithstanding anything in rules 3 and 4, licenses for the possession of dangerous petroleum (otherwise than in bulk) within or near the town of Calcutta shall not be granted unless the following special conditions are imposed, namely:—

(*a*) the quantity of petroleum covered by a license shall not exceed 3,000 gallons;

(*b*) the building in which the petroleum is to be stored must be constructed of masonry, with a terraced, tiled or iron roof, and with a tiled, paved or earthen floor;

(*c*) the doorways and other openings of such building must be built up to such a height above the level of the road or street, or the floor of such building must be sunk to such a depth below the level of the road or street, that the petroleum stored in it cannot flow out from the building in case of its escape from the receptacles in which it is contained; *or* the building itself must be surrounded with a masonry wall sufficiently high to contain all the petroleum stored in the building in case of its escape from the building; *or* a combination of these methods may be adopted;

(*d*) there must be a clear open space of at least 150 feet round such building ;

(*e*) the drums or other receptacles in which the petroleum is contained must fulfil the following conditions, namely :—

(*i*) they must be of gas-tight iron or steel, of at least $\frac{1}{8}$th of an inch in thickness, containing not more than 10 gallons and fitted with well-made filling holes and well-fitting screw plugs, *or* of gas-tight tinned sheet-iron, containing not more than 10 gallons, and fitted with screw caps with metal air-tight under caps or fitted with well-fitting screw plugs, and, if of the latter description, they must be packed in strong wooden cases, the thickness of the wood to be not less than $\frac{1}{8}$ an inch ;

(*ii*) they must be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extra-ordinary accident, to be broken or become defective, leaky or insecure in transit ;

(*iii*) the nature of the contents, and also the words "highly inflammable," must be distinctly marked on each ; and

(*iv*) an air space of at least $\frac{1}{10}$th its capacity must be left in each drum or other receptacle at the time of filling.

(*f*) no smoking, or light or fire of any description, shall be permitted at any time within or near any building licensed under this rule ;

(*g*) no drum or other receptacle containing dangerous petroleum shall be opened, or the petroleum drawn off, within or near any building licensed under this rule.

"4B. Nothing in these rules shall affect the rules relating to the grant of licenses to possess dangerous petroleum for use in motor cars or cycles."

Pleadership and Mookhtarship Examinations.

1. Radha Charan Das, No. 153, whose name was omitted in the list of successful candidates for the Pleadership Examination published in the *Calcutta Gazette* on the 27th April 1904, is declared by the Examiners to have successfully passed the Pleadership Examination.

2. The name of Bharat Chandra Das, No. 389, was inserted by mistake in the list of successful candidates for the Mookhtarship Examination published in the *Calcutta Gazette* on the 4th May 1904, and is hereby cancelled.

WILLIAM GRAHAM,
Secretary to the Board of Examiners for Pleadership and Mookhtarship.

The 16th May 1904.

Yearly Examination of Candidates for fourth grade of Accountants.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 4th and 5th July 1904, at 10-30 A.M., both days:—

SUBJECTS.

	Full marks.	Minimum pass marks.
Writing (neatness, clearness and rapidity)	100	50
Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole)	240	160
Mensuration (*a*) the whole	60	30
Book-keeping (*b*) mercantile	100	50
Total ...	600	...

Minimum required in all papers collectively, 400.

(*a*) Todhunter's Mensuration for Beginners.
(*b*) "Book-keeping," by Ball and Hamilton.
"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burma only). The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application).

(2) Certificate of age (baptismal or of birth), not required, if the candidate is already in permanent Government employ.

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. Passed candidate should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rupees ten.

Secy. to the Govt. of Bengal.

No. 1359—41-3, dated Simla, the 30th April 1904.

NOTIFICATION—By the Government of India, Revenue and Agricultural Dept.

THE following draft of Rules which it is proposed to issue in exercise of the powers conferred by section 20 of the Indian Mines Act, 1901 (VIII of 1901), is published, as required by the said section, for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration by the Governor-General in Council on or after the 30th July 1904; and any objection or suggestion, which may be received from any person with respect to the draft before that date, will be considered by the Governor-General in Council.

Draft Notification.

In exercise of the powers conferred by section 20 of the Indian Mines Act, 1901 (VIII of 1901), the Governor-General in Council is pleased to make the following rules for application to all coal mines in British India:—

VIII.—MANAGERS AND THEIR CERTIFICATES.

(*1*) Every person who, in accordance with section 13, sub-section (1), of the Act—

(*a*) is the manager of a mine in which usually more than 150 persons are employed underground simultaneously, shall be the holder of a first-class certificate granted under these rules;

(*b*) is the manager of a mine in which usually from 50 to 150 persons are so employed, or is the under-manager of any mine, shall be the holder of a second-class certificate granted under these rules;

(*c*) is the manager of a mine in which usually not more than 50 persons are so employed, shall be the holder of a permit granted under these rules, or, if the Chief Inspector of Mines so requires, of a second-class certificate:

Provided that, if for any reasonable cause there is not for the time being, in the case of any mine, a manager having the qualifications above required, any competent person appointed by the owner or agent and not holding a certificate or permit granted under these rules, may act as manager until he has had an opportunity of obtaining the necessary certificate or permit under these rules, in the district wherein the mine is situated. The owner or agent shall send, without delay, to the Chief Inspector of Mines a written notice of such temporary manager's name and address and of the reason of his appointment:

Provided also that, if for any emergent cause the manager of a mine cannot attend to his duties and there is no under-manager, any competent person, whom the manager may appoint, and for whom he shall be responsible, may carry on his duties for a period not exceeding fourteen days The manager shall, without delay, send to the Chief Inspector of Mines a written notice of any such appointment.

(2) A manager holding a second-class certificate may manage more than one mine, if the aggregate number of persons who are usually employed underground simultaneously in all the mines managed by him does not exceed 150. A manager holding a permit may not manage more than one mine.

(3) This rule shall not come into force until the , 1904.

2. If the owner or agent appoints an under-manager to assist the manager, he shall, within two months of such appointment, send a written notice thereof to the Chief Inspector of Mines. An under-manager so appointed shall have the same responsibility and be subject to the same liabilities as the manager, but his appointment shall not affect the personal responsibility or liabilities of the manager.

3. A contractor for getting mineral in a mine, or a person employed by such contractor, shall not be eligible for the post of manager or under manager.

4. Certificates under these rules shall be granted by the Local Government. They shall be of two kinds, namely, certificates of competency and certificates of service, both having the same effect; and there shall be two classes of each kind, first and second.

5. (1) Certificates of competency shall be granted on the recommendation of a Board of Examiners. The Board of Examiners shall consist of the Chief Inspector or an Inspector of Mines as *ex-officio* president, and of two technically qualified persons as members, one being an owner or manager of a mine and the other a mining engineer. These two members shall be appointed by the Governor-General in Council, each for a term of three years at a time, and they shall receive such remuneration as the Local Government may, with the sanction of the Governor-General in Council, fix.

(2) Examinations for certificates of competency shall be held at such times and places as the Local Government may direct, and full particulars regarding every examination shall be published in each issue of the local official Gazette for at least three months immediately preceding the date fixed therefor

(3) No person shall be admitted as a candidate for a first-class certificate of competency unless he has attained the age of twenty-three years and has had practical experience in a mine for at least five years to the satisfaction of the Board of Examiners:

Provided that the said period of five years may be reduced to three, if the Board of Examiners thinks fit, in the case of a candidate who produces satisfactory evidence that he has successfully passed through the curriculum of a recognised Mining School or any other course which the Local Government may declare to be equivalent thereto.

(4) No person shall be admitted as a candidate for a second-class certificate unless he has attained the age of twenty-one years, and has at least three years' practical experience in a mine, to the satisfaction of the Board of Examiners:

Provided that the said period of three years may be reduced to one, if the Board of Examiners thinks fit, in the case of a candidate who produces satisfactory evidence that he has successfully passed through the curriculum of a recognised Mining School, or any other course which the Local Government may declare to be equivalent thereto.

(5) The Board of Examiners may, from time to time, make regulations as to the conduct of examinations for certificates of competency, so, however, that in every such examination regard shall be had to such knowledge as is necessary for the practical working of coal mines in India. Except as regards examinations held before the 1904, no regulation made by the Board of Examiners under this rule shall take effect until it has been published for six months.

(6) A fee of Rs. 25 shall be charged in the case of an examination for a first-class certificate, and one of Rs. 10 in the case of an examination for a second-class certificate, of competency. These fees shall be payable in advance

6. (1) A first-class certificate of service shall be granted to any person who satisfies the Local Government that he has acted substantially for at least five years as the manager of a coal mine in India in which usually more than 150 persons have been employed below ground simultaneously:

Provided that until the , 1906, the said period of five years may be reduced to three, if the Board of Examiners think fit.

(2) A second-class certificate of service shall be granted to any person who satisfies the Local Government that he has acted substantially for at least three years as the manager of a mine in India in which usually more than 50 persons have been employed underground simultaneously, or that he has, within five years of the commencement of these rules and for a period of not less than three years, exercised functions substantially corresponding with those of a manager or under-manager in such a mine.

(3) Every application for a certificate of service shall contain particulars of the name, place, and date of birth, the place of employment, and the length and description of the previous service, of the applicant, and such a certificate may be refused, if a full and satisfactory account of the particulars aforesaid is not furnished.

(4) A fee of Rs. 10 shall be charged for a first-class, and one of Rs. 5 for a second-class, certificate of service. These fees shall be payable in advance.

7. (1) The Local Government may grant to any person holding a first-class or a second-class certificate granted under any Act for the regulation of mines for the time being in force in the United Kingdom or in a British Colony a similar certificate under these rules:

Provided that such person has furnished proof to the satisfaction of the Local Government of his identity and good personal character.

(2) A fee of Rs. 10 shall be charged for a first class, and one of Rs. 5 for a second-class, certificate granted under this rule. These fees shall be payable in advance.

8. Permits shall be granted by and at the discretion of the Chief Inspector of Mines, and shall be signed by him. Every such permit shall remain in force for such period, not exceeding twelve months, as the Chief Inspector thinks fit, and may be cancelled with or without cause assigned, at any time, or renewed on its expiration at the discretion of that officer.

9. A register of the holders of certificates or permits granted under these rules shall be kept by the Chief Inspector of Mines.

10. Whenever any person proves to the satisfaction of the Local Government that he has, without any fault on his part, lost or been deprived of a certificate granted to him under these rules, the Local Government may, on application made by him through the Chief Inspector of Mines, and upon such terms and conditions as the Chief Inspector may determine, cause a copy of the certificate to which the applicant appears by the register to be entitled, to be made and certified by the Chief Inspector of Mines, and delivered to the applicant. The word "Duplicate" shall be stamped across every such copy, and a fee of Rs. 2 shall be charged for it and shall be payable in advance.

11. If at any time a representation is made by the Chief Inspector of Mines to the Local Government that the holder of a certificate granted under these rules is guilty of misconduct or incompetency in the discharge of his duties, or has been convicted of an offence under the Act punishable with fine which may extend to Rs. 500, or with imprisonment which may extend to three months, the Local Government may cause an enquiry to be made into the matter; and with respect to such enquiry the following provisions shall have effect, namely:—

(a) The enquiry shall be public, and shall be held at such place as the Local Government may appoint, and by such person as it may direct either alone or with the assistance of any assessor or assessors named by the Local Government. Such assessors shall be practical mining engineers or persons with a knowledge of the practical working of mines.

(b) The Local Government shall, before the commencement of the enquiry, furnish to the manager or under-manager concerned a statement of the representation on which the enquiry is instituted.

(c) The Local Government may appoint any person to undertake the management of the case.

(d) The manager or under-manager concerned may attend the enquiry, and may either conduct his case personally or be represented by any other person approved by the person or persons appointed to hold the enquiry (hereinafter referred to as 'the Court").

(e) The Court may, if it thinks fit, require the manager or under-manager concerned to deliver up his certificate at any time before or during the enquiry, and the manager or under-manager shall be bound to comply with such requisition, unless he shows sufficient cause to the contrary to the satisfaction of the Court.

(f) The Court shall, on the conclusion of the enquiry, send to the Local Government a report containing a full statement of the case, together with its opinion thereon and such account of or extracts from the evidence as it may think fit; and, if it considers that the certificate of the manager or under-manager concerned should be cancelled or suspended, it shall add a recommendation to that effect.

(g) After considering the report and recommendation (if any) submitted under clause (f), the Local Government may cancel or suspend the certificate and, if it does so, the fact of such cancellation or suspension shall, if the certificate is produced, be endorsed upon it, and, if it is not produced or if at any time a duplicate has been granted under rule 10, be notified in the *Gazette of India* and in the local official Gazette.

(h) When a certificate is cancelled or suspended under this rule, the Chief Inspector of Mines shall record the fact in the register of certificates kept under rule 9.

(i) The Local Government may at any time renew or restore, on such terms and conditions as it thinks fit, any certificate cancelled or suspended under this rule.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 514T.M.—The 13th May 1904 —It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, and in accordance with the recommendation of the Commissioners of the Budge-Budge Municipality, in the district of the 24-Parganas, made at a meeting, to extend the provisions of Part IX of the said Act to the areas specified below of the above Municipality unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality:—

24-Parganas.

1. The boundaries of the area containing holdings within one hundred feet on the east side of the Trunk Road are as follows:—

North—The Trunk Road.	*South*—The Charrial Khal.
East—Paddy-fields.	*West*—The Trunk Road.

2. The boundaries of the area containing holdings on the Mehta Road are as follows:—

North—Bye-lane of Mehta Road.	*South*—Another bye-lane of Mehta Road.
East—The Webber Road.	*West*—The River Hooghly.

No. 524T.M.—The 10th May 1904.—It is hereby notified that, under section 14 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Baduria Municipality, in the district of 24-Parganas:—

24-Parganas.

Babu Jotindra Mohan Bose.	Munshi Ohajuddin Akhenjee.
„ Kedar Nath Bhattacharjee.	„ Aizuddi Molla.

No. 633T.M.—The 16th May 1904.—Whereas a notification No. 1462M., dated the 9th February 1904, was published at page 53, Part IB of the *Calcutta Gazette* of the 16th March 1904, declaring the intention of the Lieutenant-Governor to make the following rules under section 69B (*ii*) of the Bengal Municipal Act, III of 1884, for the guidance of Commissioners of Municipalities in matters connected with the carrying out of the purposes of section 69 (1) (*ii*) so far as they relate to the supply of water; and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification in the *Calcutta Gazette*, it is hereby notified for general information that, in exercise of the powers vested in the Local Government by section 69B (*ii*) of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to make the said rules which will come into force with effect from the date of this notification:—

Rules for the Management of Water-works under the Supervision of the Government of Bengal.

1. The management of the Water-supply system of any Municipality shall, if the Commissioners at a meeting so decide, be vested in a managing Committee, to be called the Water-works Committee, consisting of the District Magistrate, the Civil Surgeon, the Executive Engineer (or if there is no Executive Engineer then the District Engineer), together with the Chairman of the Municipality, and two other members to be elected from among their own body by the Municipal Commissioners:

Provided that in the case of Joint-Committees constituted under section 30 of Bengal Act III of 1885 (The Bengal Local Self-Government Act), one Member will be elected by the District Board and one by the Municipal Commissioners.

2. The Water-works Committee (hereinafter called the Committee) shall act as the agents of the Municipal Commissioners, or Joint Committee as the case may be, in all matters relating to the administration of the water-supply of the Municipality, and shall for this purpose exercise all the powers vested in the Municipal Commissioners by the Bengal Municipal Act, III of 1884, provided that the Committee do not act in opposition to or in contravention of any order passed by the Commissioners at a meeting, and do not exercise any power which is directed by the law to be exercised by the Commissioners at a meeting.

Provided also that all orders or processes of a compulsory nature shall be issued under the authority and signature of the Chairman of the Municipality or of the Vice-Chairman under authority delegated to him by the Chairman under section 45 of the Bengal Municipal Act 1884.

3. The Committee shall meet at least once a month, and shall scrutinize the accounts, the copies of all statements submitted to the Sanitary Engineer during the preceding month, and enquire into all matters connected with the water-supply of the Municipality. They shall examine and pass the monthly accounts, and shall keep a minute book in which their proceedings shall be recorded.

4. The Committee shall be responsible for the proper application of the Water-supply funds. It shall be their duty to bring to the notice of the Municipal Comm issioners any instances in which the water-rates are irregularly collected or are insufficient for carrying out the purposes of Part VII of Act III of 1884 (The Bengal Municipal Act).

5. The Committee shall frame the annual budget of income and expenditure on account of the Water-works and shall submit it to the Sanitary Engineer for any remarks he may consider necessary. The budget as framed together with the Sanitary Engineer's remarks shall be forwarded by the Committee to the Chairman of the Municipality for incorporation in the Municipal Budget.

6. The Chairman of the Municipality shall, at the end of each month, prepare a statement of the accounts of the Water-supply funds, which he shall submit to the Committee, at their next meeting.

7. The Sanitary Engineer shall scrutinize the expenditure and accounts of the Committee and shall call their attention to any irregularity or other circumstance which, in his opinion, deserves notice. The Committee shall be bound to consider all communications from the Sanitary Engineer and afford him full information. In all professional matters the Committee will be guided by the advice of the Sanitary Engineer, but if any difference of opinion on general questions arises between him and the Committee, a reference shall be made to the Sanitary Board.

8. The Sanitary Engineer, Bengal, shall exercise complete professional control over the Superintendent of the Pumping Station.

9. The Sanitary Engineer will visit the Water-works not less than once a year and submit a report thereon to the Sanitary Board. The Committee

shall arrange for the proper inspection of the boilers and pumping machinery not less than twice a year, but the Inspectors must be approved by the Sanitary Board and their reports will be submitted in Sanitary Engineer's Form No. 6 (Appendix A) to the Sanitary Engineer and by him to the Sanitary Board.

10. Until all points raised in the reports of the Sanitary Engineer and the Inspector of Machinery have been disposed of, the Committee will submit to the Chairman of the Municipality for transmission through the District Magistrate to the Sanitary Board, a monthly progress report showing how far effect has been given to the recommendations made in the Reports.

11. The Committee shall cause to be kept at the Pumping Station :—

(*a*) A stock account in Sanitary Engineer's Form No. 4 (Appendix A), showing the daily transactions in coal, and engine-room stores;

(*b*) An Engine-Room Log in Sanitary Engineer's Form No. 3 (Appendix A);

(*c*) A Filter-Bed Log in Sanitary Engineer's Form No 5 (Appendix A);

and such other forms as the Sanitary Engineer may from time to time prescribe.

These forms shall be written up daily by the Superintendent and shall be available at all times for inspecting officers and the Visiting Members of the Committee.

12. The Committee shall submit to the Sanitary Engineer not later than the 10th of each month :—

(*a*) A monthly Abstract of Work done by the Pumping Machinery in Sanitary Engineer's Form No. 2 (Appendix A).

(*b*) A report showing the thickness of fine sand in the filters in Sanitary Engineer's Form No. 8 (Appendix A).

and such other information as the Sanitary Engineer may from time to time prescribe.

13. The Committee shall cause the following to be submitted to the Sanitary Engineer not less than once a month :—

(*a*) Indicator diagrams from each engine in Sanitary Engineer's Form No. 1 (Appendix A). The diagrams should be accompanied by a copy of the Engine-Room Log (Form No. 3) for the day on which they are taken.

(*b*) A report on the bacteriological examination of the water dealt with at the Pumping Station in Sanitary Engineer's Form No. 7 (Appendix A). Whenever the bacterial colonies are counted by the Civil Surgeon, the report should be countersigned by that officer. This report should be accompanied by a copy of the Filter-Bed Log (Form No. 5) for the day on which the tubes were inoculated.

and such other information as the Sanitary Engineer may from time to time prescribe.

14. It shall be the duty of the Committee to see that the rules for working Filter Beds of Water-works in Bengal (Appendix B) are properly attended to by the Superintendent of the Pumping Station. In cases where, owing to the design of the works, the rules cannot be carried out, the matter should be referred to the Sanitary Board for orders.

15. Two members of the Committee shall be appointed in rotation to be visitors, for the month, of the Pumping Station. It shall be their duty to enquire whether these rules are being attended to in all respects and to bring any matters they consider worthy of notice before the Committee.

16. A Visitors' Book shall be kept at the Pumping Station in which will be recorded the visitor's remarks. A copy of these remarks shall be forwarded, on the day of entry, to the Sanitary Engineer who will, if he thinks fit, transmit it with his remarks to the Sanitary Board. The final orders of the Sanitary Board or Sanitary Engineer shall be entered in the Visitors' Book.

17. An extract from the proceedings of each meeting of the Committee shall be promptly forwarded to the Sanitary Engineer who may, if he thinks fit, and shall, if the Committee so desire, submit it with his remarks to the Sanitary Board.

port on an examination of the Boilers, Engines and Pumps of the Water-rks, made by the

BOILERS.

1. Description of boilers, giving maker's name and of erection. ive grate area and calculated horse-power.	
2. When and by whom last examined :— (*a*) If examined by an Inspector of Steam-boilers under Act III (B.C.) of 1879, give name of Inspector and number and date of last certificate. (*b*) Note working pressures previous to last examination ; and, if any reduction in pressure was made by the Inspector, state how much, and why such reduction was made.	

BOILERS—*continued.*

Note.—If the boilers are working under certificates granted by an Inspector under Act III (B.C.) of 1879, questions 3, 4, 5 and 6 need not be answered.

3. Have you examined the boilers internally and externally; if so, with what results? Give thickness of scale, if any, and state whether you had it removed.	
4. Did you test the boilers by hydraulic pressure; if so, up to what pressure? Did you ascertain that the steam-gauge was correct, and that the steam relief-valve was in working order, and not over-weighted, before applying the hydraulic test?	
5. What working pressures do you now recommend?	

BOILERS—*continued.*

6. Have you examined all the boiler-fittings, such as safety-valves, feed water-pipe, blow-off cocks, steam and water-gauges, &c., &c.? State if they are all in good working order, and if not, what is required to make them so? *Note.—The safety-valves should not be weighted to more than 10 lbs. (preferably 5 lbs.) above the working pressure.*	
7. Are the boilers blown out regularly, and safety-valves lifted to ensure their not sticking; and is a record kept of the dates on which this has been done since the last inspection?	
8. Is the floor of the boiler-house kept dry and in good order? (*a*) Where are the ashes slaked? (*b*) When was soot last removed from the flues? (*c*) Are the flues free from moisture during the rainy season?	
9. State which of the following are available for filling the boiler, and which is generally used— (*a*) Feed-pump on engine. (*b*) Donkey-pump. (*c*) Injector. (*d*) Cold water pressure from the mains.	

BOILERS—*concluded.*

10. State average fuel consumption since last report, giving the percentage of ashes and kind of fuel used. If coal be used, give name of colliery from whence obtained.	
11. General remarks. *Note.—Any repairs that have been done in the boiler-house, since last inspection, should be recorded here.*	

ENGINES.

12. Description of Engines, noting also maker's name, date of erection, diameters of cylinders, and length of stroke.	
13. When and by whom last examined?	

ENGINES—*continued.*

14. Did you examine the interiors of the cylinders, and so, with what result ?	
15. Did you examine the steam-valves, and if so, with what result ?	
16. Did you take any indicator diagrams ? If so, attach to this report a set worked out, with full particulars noted :— (*a*) State whether you consider the valves are properly set for the most economical working of the engine. (*b*) State whether you consider the indicator diagrams are satisfactory or not, and whether any difference in them is apparent. If so, what, in your opinion, has caused the difference ?	

ENGINES—*concluded.*

17. Are all stuffing boxes and glands kept properly packed, and steam-pipes free from leaks ?	
18. What vacuum is generally maintained ?	
19. Is the air-pump in good order ? Give temperature of its discharges. *Note.—The temperature should not exceed 115°.*	
20. Are the lubricants in use of good and suitable quality, and is a sufficiently large supply of all stores kept in hand ?	
21. General remarks. *Note.—All repairs, however slight, that have been carried out since last report, should be mentioned here.*	

PUMPS.

22. Description of pumps, noting also diameters of buckets or plungers, length of stroke, number and size of valves.	
23. Did you examine all buckets and plungers, and if so, with what result?	
24. What do you consider is the percentage of "slip"? (*a*) What do you find the mechanical efficiency of the engines?	
25. Were the pumps working smoothly, evenly and without noise, or banging of valves?	
26. Are the air-vessels kept properly charged with air? (*a*) State means of doing so.	

PUMPS—*concluded.*

27. General remarks. *Note.—All repairs that have been carried out since last report should be mentioned here.*	

GENERAL.

28. Is the Staff at the Pumping Station sufficient, and the health of the employés generally good?	
29. General remarks.

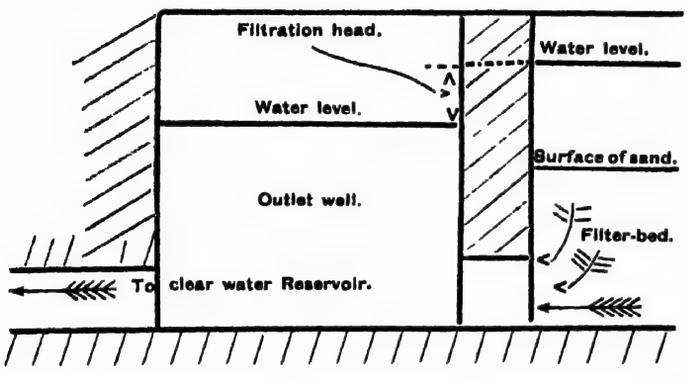
APPENDIX B.

RULES FOR WORKING FILTER-BEDS OF WATER-WORKS IN BENGAL.

(Revised by order of the Sanitary Board, Bengal, 26th May 1896.)

1. The depth of water above the surface of the sand in a filter-bed should never be allowed to exceed two feet; care should be taken to always maintain this depth of water as long as filtration is in progress, and for this purpose gauges should be painted on the side walls of the filter-beds.

2. The water collecting in the drains of a filter-bed is usually discharged into a small masonry well called the *outlet-well*, from whence it passes through a sluice into the clear-water reservoir; the difference of level between the surface of the water in the filter-bed and that in the outlet-well is called the *filtration head;* the rough sketch in the margin explains this clearly. The *filtration head* should not under ordinary circumstances exceed *six inches*, but in cases of emergency it may be allowed to reach as much as twelve inches. Full reasons for allowing the filtration head to exceed six inches should be recorded in the filter-bed log-book.



3. The interiors of outlet-wells should be painted white, and gauges should be painted on the side walls, so that the filtration head may be accurately recorded.

4. Readings of all gauges should be taken every two hours while the filters are at work, and recorded carefully in the log-book (Sanitary Engineer's Form No. 5) or in any other form approved by the Sanitary Engineer.

5. Filter-beds should not be worked continuously, but the surface of the filtering material should be exposed to the air for at least eight hours out of the twenty-four, so as to enable the air to penetrate and so oxidize any organic matter deposited in the interstices of the filtering material by the unfiltered water. Filter-beds should, preferably, be run dry at night time only.

6. Filter-beds should *not* be charged from below or by admitting water upwards on to the surface of the sand. When a filter-bed is to be brought into work, the outlet valve should be kept closed until the depth of water on top of the sand remains at the limit prescribed in rule 1, *i.e.*, two feet, care should be taken not to disturb the surface of the sand by admitting water too rapidly at first.

7. Sand that has been scraped from the surfaces of filter-beds should be left exposed to the air for six or seven days before it is washed and replaced in the filter-beds.

8. The fine sand in a filter-bed should never be reduced by scraping to a less depth than 12 inches. When sand washers are available, the fine sand should be brought up to its correct thickness after every third scraping, so that the rate of flow through the filtering material may be kept as uniform as possible.

9. The filtering material and brick drains should be entirely removed from the filter basin once every four years. The pebbles, or broken stone, and the coarse sand may be replaced, provided they have been thoroughly exposed to the air while the brick drains are being laid; they should be spread out in thin layers and turned over with spades at least once a day. The fine sand should be entirely renewed. When a filter-bed has been reconstructed and charged, the filtered water flowing from it should be allowed to run to waste for at least 48 hours.

10. Water should not be allowed to remain in settling tanks longer than is necessary for the deposition of suspended mineral matter, such as clay, sand, etc. Whenever the water of the source of supply is sufficiently clear, it may be pumped direct into the filter-beds, or if the intermittent character of the flow causes damage to the surface of the filtering material, the water may be passed through the settling tanks at a low level without being allowed to stagnate.

No. 526T.M.—The 10th May 1904.—It is hereby notified that the Commissioners of the Kotchandpur Municipality, in the district of Jessore, having at a meeting requested the Local Government, under section 23 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, to appoint a Chairman, the Lieutenant-Governor is pleased to appoint Mr. J. Vas to be their Chairman.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Muzaffarpur, will be put up to sale at the Muzaffarpur Collectorate on the 6th June 1904.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price already fixed by the Collector. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force: and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale :—

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.:

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

The following Notices are published for general information.

D. B. HORN,
Secretary, Marine Department.

CALCUTTA, *the 14th May 1904.*

KOREA, WEST COAST—CHEMULPHO.

Wrecks in anchorage.

No. 151 (first publication).—The British Admiralty has given notice (No. 268 of 1904) that the undermentioned sunken wrecks are situated in Chemulpho anchorage:—

1. A wreck in a position with So Wolmi lighthouse bearing N. 52° E., distant 12¼ cables, and Nak Syom summit East.
2. A wreck in a position with So Wolmi lighthouse bearing N. 42° E., distant 5¼ cables, and Nak Syom summit S. 78° E.

There is another wreck situated at a distance of half a cable N. 37° E. from the above wreck (2).

Approximate position of So Wolmi lighthouse, lat. 37° 27¾′ N., long. 126° 36′ E.

(*Variation 5° Westerly in 1904.*)

This Notice affects the following Admiralty Chart:—Plan of Chemulpho on Chart No. 1270: Also, Sailing Directions for Japan and Korea, 1904, page 61.

PERSIAN GULF—SHATT-AL-ARAB OR BASRA RIVER.

Wreck in approach removed.

No. 152 (first publication).—With reference to Notice to Mariners No. 48, dated 8th February 1904, issued by this office, the British Admiralty has given further notice (No. 275 of 1904) that the wreck of S.S. *King Arthur*, which sank in the entrance of the Western channel (Khor-al-Kafka), Shatt-al-Arab or Basra river, at a distance of a quarter of a mile N. 56° W. from the Outer buoy, has been removed.

Approximate position, lat. 29° 49′ N., long. 48° 43¾′ E.

(*Variation Nil in 1904.*)

This Notice affects the following Admiralty Chart:—Shatt-al-Arab, No. 1235: Also, Persian Gulf Pilot, 1898, page 285.

AUSTRALIA, QUEENSLAND—Gulf of Carpentaria.

Norman river approach—Light-vessel withdrawn.

No. 153 (first publication).—The British Admiralty has given notice (No. 279 of 1904) that on 1st March 1904, the light-vessel exhibiting a white fixed light in the approach to Norman river would be withdrawn.

Approximate position, lat. 17° 27½′ S., long. 140° 43′ E.

A *white fixed* light will be exhibited at the masthead of a lighter moored in the anchorage when the mail steamer is expected.

This Notice affects the following Admiralty Charts:—Gulf of Carpentaria, No. 1807; Norman river, No. 3254: Also, List of Lights, part VI, 1904, No. 1353; Australia Directory, vol. III, 1895, page 60; and Revised Supplement, 1902, page 9.

EASTERN ARCHIPELAGO—Celebes, north coast—Kwandang bay.

Antoinette reef—Beacon disappeared.

No. 154 (first publication).—The British Admiralty has given notice (No. 281 of 1904) that the pile beacon with conical topmark marking Antoinette reef, in Kwandang bay, has disappeared.

Approximate position, lat. 0° 56½′ N., long. 122° 55′ E.

This Notice affects the following Admiralty Chart:—Penang to Pulo Motuo, No. 2224: Also, Eastern Archipelago, part II, 1893, page 383; and Supplement, 1899, page 60.

KOREA, WEST COAST—Chemulpho approach.

Unreliability of lights during winter.

No. 155 (first publication).—With reference to Notice to Mariners No. 130, dated the 14th April 1904, issued by this office, the British Admiralty has given further Notice (No. 284 of 1904) that although, as stated in that Notice, it is correctly reported that the unwatched lights on White rocks, North Watcher, Yo dol mi, and So Wolmi are in the very cold weather unreliable owing to the illuminant becoming frozen, it is stated that the illuminant in question is not oil gas.

Approximate position, So Wolmi, lat. 37° 27¾′ N., long. 126° 35¾′ E.

BAY OF BENGAL—Chittagong coast.

Regu shoal—Existence of.

No. 156 (first publication).—The British Admiralty has given Notice (No. 285 of 1904) that information has been received from the Officer in charge of the Marine Survey of India of the existence of Regu shoal, with a least depth of 2¾ fathoms over it at low-water springs, situated at a distance of 6¾ miles N. 31° W. from Elephant point; it is just over 2 miles long in a N. 11° E. and S. 11° W. direction, and half a mile wide, and is composed of rock, and hard sand.

Approximate position, lat. 21° 15¾′ N., long. 91° 59′ E.

There is deep water between this shoal and the coast.

(*Variation 3° Easterly in 1904.*)

This Notice affects the following Admiralty Chart:—Mutlah river to Elephant point No. 859: Also, Bay of Bengal Pilot, 1901, page 251.

BAY OF BENGAL—Naaf river approach.

Delay shoal—Existence of.

No. 157 (first publication).—The British Admiralty has given notice (No. 286 of 1904) that information has been received from the Officer in charge of the Marine Survey of India of the existence of Delay shoal, with a least depth of 4 fathoms over it, in the approach to Naaf river, situated at a distance of 6¼ miles S. 46° W. from the south point

of St. Martin's island. This shoal is a small patch of hard ground, 4 cables long in an easterly and westerly direction, and 2 cables wide.

Approximate position, lat. 20° 30′ N., long. 92° 16′ E.

A ridge, over which the depths are very irregular, extends about 3½ miles in a S. 11° E. direction from Delay shoal, 5¼ fathoms was the least water obtained on it, but it should not be crossed as pinnacles with less water over them may exist.

(*Variation 3° Easterly in 1904.*)

This Notice affects the following Admiralty Charts:—Elephant point to Chedúba, No. 821; Cocanada to Bassien river, No. 829: Also, Bay of Bengal Pilot, 1901, page 253.

AUSTRALIA—Wide bay bar.

Directions for crossing the bar.

No. 144 (second publication).—The Portmaster, Brisbane, has given notice (No. 6 of 1904) that, when crossing the Wide Bay Bar, the Square Beacons must now be kept open twice their own to the northward, keeping them so until the Inskip Lead is also open the same distance to the westward, then proceed as before. Vessels may borrow slightly to the north and west of these lines.

Owing to the recent bad weather experienced the Bar has again commenced to shift in a northerly direction, and mariners are requested to exercise the utmost caution when using the Bar.

Charts affected, Nos. 1030 and 1068; Australia Directory, Vol. II.

JAPAN—Naikai (Inland sea)—Hiroshima bay.

Yakatashi rock—Light established.

No. 145 (second publication).—The British Admiralty has given notice (No. 247 of 1904) that, on 15th February 1904, a *white fixed* light, elevated 19 feet above high water, and visible in clear weather from a distance of 8 miles, was established on the stone conical beacon,

painted red, erected on a rock named Yakataishi near the northern extremity of Yeda sima The light is unwatched, and has a light power of 80 candles.

Approximate position, lat. 34° 17¾′ N., long. 132° 29′ E.

This Notice affects the following Admiralty Chart:—Naikai, No. 2875: Also, List of Lights, part VI, 1904, No. 918a; and Sailing Directions for Japan, &c., 1903, page 486.

RED SEA, WESTERN SHORE—Asab bay.

Rubattino channel—Leading beacons removed.

No. 146 (second publication).—The British Admiralty has given notice (No. 249 of 1904) that, in consequence of the alteration which has taken place in the depths in Rubattino channel, Asab bay, the leading beacons erected on the small islet between Huiheb and Haleb islands have been removed.

Approximate position, lat. 12° 57½′ N., long. 42° 54′ E.

This Notice affects the following Admiralty Chart:—Plan of port Asab on Chart of Red sea, No. 8e; and Chart No. 143, Jebel Teir to Perim island: Also, Red Sea, etc., Pilot, 1900, page 228.

PACIFIC OCEAN, SOUTH—Royal Company's islands.

Non-existence of, reported.

No. 147 (second publication).—The British Admiralty has given notice (No. 252 of 1904) that on old Charts of the South Pacific ocean, in the area south of Australia, a group of islands, named Royal Company's islands, are marked as existing in lat. 50° 20′ S., long. 143° 0′ E. They have consequently been inserted for many years in the Admiralty publications.

These islands are not mentioned in any Sailing Directions, the original report of their existence cannot be traced, nor have they apparently been seen by any passing vessel.

Since 1890 the Hydrographic Department of the Admiralty has been collecting data showing where ice and icebergs may be met with in the Southern oceans, and this has necessitated plotting the tracks of many vessels passing south of Australia, several of which have passed over, or close to, the position assigned to the Royal Company's islands without seeing them or any sign of land near them:—thus in 1892 the *Pakeha* passed one mile north of their assigned position; in 1893 the *Crusader* passed 5 miles north of them; in 1894 the *Rangatira* passed 15 miles north of them; in 1895 the *Maori* passed 2½ miles south, and the *Rangatira* 15 miles south of them; in 1899 the *Rangatira* passed one mile south of them, and the *Matatua* 2 miles north; in 1900 the *Matatua* passed over the position in which they are supposed to be situated; in 1901 the *Karamea* passed 40 miles south of them, and in 1902 the *Pakeha* passed 12 miles south of them.

As no certain information is available as to why these islands were originally placed on the Charts, and as it is evident from the tracks plotted that no land exists in the locality in which they are marked on the Charts, they have now been expunged from the Admiralty publications.

This Notice affects the following Admiralty Charts:—Atlantic and Indian oceans, etc. No. 2483; Pacific ocean, Nos. 2683 and 788.

AUSTRALIA, WEST—Geographe bay.

Cape Naturaliste—Light established.

No. 148 (second publication).—With reference to Notice to Mariners No. 356, dated 31st October 1903, issued by this office, the British Admiralty has given further Notice (No. 253 of 1904) that, on 15th April 1904, a *white group flashing* dioptric light showing groups of two flashes *every ten seconds*, thus:—flash, *one-tenth of a second*, eclipse, *two and six-tenths of a second*, flash, *one-tenth of a second*, eclipse, *seven and two-tenths of a second*, will be established in a grey stone tower, 62 feet high, constructed in a position about a mile S. 67° E. from the extremity of cape Naturaliste. The light will be elevated 404 feet above high water and visible in clear weather from a distance of 29 miles; it will be obscured over the land from the bearing of N. 20° E., through north, to N. 63° W.

Approximate position, lat. 33° 32′ S., long. 115° 2½′ E.

(*Variation 4° Westerly in 1904.*)

This Notice affects the following Admiralty Charts:—Indian ocean, No. 748b; Australia, No. 2759b; Champion bay to cape Naturaliste, No. 1033; cape Naturaliste to King George sound, No. 1034: Also, List of Lights, part VI, 1904, No. 1071a; and Australia Directory, vol. III, 1895, page 395.

AFRICA, NORTH-EAST—Red sea, western shore.

Massawa channel—Intended alteration in lighting—Buoy.

No. 149 (second publication).—The British Admiralty has given notice (No. 254 of 1904) that it is intended to make the undermentioned alteration in the lighting of the Massawa channel :—

1. Difnein island. The white fixed light on this island will be replaced by a *white flashing* light *every five seconds*, with a *red* sector, exhibited from an iron tower 114 feet high.

   Approximate position, lat. 16° 37′ N., long. 39° 18½′ E.

2. Madote island. A *white fixed* light, visible from a distance of 10 miles, will be established on a framework support, 35 feet high, now being constructed on this island.

   Approximate position, lat. 15° 35′ N., long. 39° 44½′ E.

3. Shumma island. The white fixed light on this island will be increased in power, and be visible from a distance of 16 miles; it will be established on an iron tower 72 feet high.

   Approximate position, lat. 15° 31½′ N., long. 39° 59′ E.

4. Shab Shakhs. It is intended to establish a *white flashing* light *every five second* on the extremity of this reef.

   Approximate position, lat. 14° 40′ N., long. 41° 6½′ E.

5. Ras Mudir. It is intended to establish a *fixed white* light, visible about 16 miles from an iron tower, 72 feet in height, on Ras Mudir, south side of entrance to Mussawa.

   Approximate position, lat. 15° 37′ N., long. 39° 27½′ E.

Also, that the black can buoy marking Mujunia reef has sunk, and will not be replaced.

Approximate position, lat. 15° 36½′ N., long. 39° 41½′ E.

Further notice will be given when these alterations have been made.

This Notice affects the following Admiralty Charts :—Massawa channel, No. 164; Jebel Tier to Perim, No. 143; Massawa harbour, No. 460: Also, List of Lights, part V, 1904, Nos. 1363, 1367, page 261; part VI, Nos. 156, 152, page 25; and Red Sea, &c., Pilot, 1900, Nos. 199, 190, 206, 197.

NEW ZEALAND—North island, west coast.

Kaipara bar—Channel altered.

No. 150 (second publication).—The British Admiralty has given notice (No. 257 of 1904) that the black and white beacons on North sand spit, Kaipara harbour, in line, now lead over the shoalest part of the bar, they will therefore be removed.

A new channel half a mile wide, in which there are depths ranging from 4¼ to 7 fathoms at low water, has opened out through North spit; it is intended to erect leading beacons to mark this channel, but in the meantime it may be used by keeping a large grassy patch (the only one in the vicinity), situated about six-tenths of a cable S. 22° E. from the lighthouse, in line with the lighthouse flagstaff N. 52° E.; this will lead through the new channel in a depth of not less than 4¼ fathoms at low-water ordinary springs. The soundings being irregular the sea will probably break heavily in westerly gales in this channel.

Approximate position of lighthouse, lat. 36° 23′ S., long. 174° 8½′ E.

(*Variation 13° Westerly in 1904.*)

This Notice affects the following Admiralty Chart :—Kaipara harbour, No. 2614: Also, New Zealand Pilot, 1901, page 244.

ARABIA, SOUTH COAST—Gulf of Aden, north shore.

Makalleh bay.—Erection of a Watch Tower, Sultan's Residency and other buildings.—Disappearance of the Flag-staff, and ruined Fort on Ras Marbat.

No. 138 (third publication).—The Bombay Government has given notice (No. 49 of 1904) that information, dated 5th April, has been received from the Officer Commanding R. I. M. S. *Dalhousie* that an additional square stone Watch Tower is erected, bearing N. 40½° W. (true) 1 mile 5¾ cables from Ruined Fort on Ras Marbat.

An imposing looking Residency for the Sultan is now being erected and nearly completed (March 1904) with other buildings in the course of construction to the westward of the town and are connected by a good road.

The Flag-staff shewn in the centre of town does not exist.

Ruined Fort on Ras Marbat is not conspicuous from the anchorage, being now almost entirely in ruins.

This Notice affects the following Admiralty Chart:—Anchorages on the coast of Arabia, Makalla Bay, No. 10; also Red Sea and Gulf of Aden Pilot, fifth edition, 1900, page 426.

JAPAN, SOUTH COAST—Honshu (Nipon).

Mura and Goza harbours—Rocks in approaches.

No. 139 (third publication).—The British Admiralty has given notice (No. 229 of 1904) that on a recent Japanese Chart the undermentioned dangers appear in the approaches to Mura and Goza harbours:—

Mura harbour.

A rock with a depth of 1½ fathoms over it, situated with Kadzura sima summit (222 feet) bearing east, distant 2 cables, and Kohara sima summit N. 37° E.

Goza harbour.

a. A shoal, named Mutsuna sho, with a depth of 2¼ fathoms over it, situated with the summit of Goza saki (310 feet) bearing S. 59° W., distant 12 cables, and Clump (233 feet) N. 45° W. This shoal extends for a distance of one cable S. 16° W. from the above position, the depth being 2¼ fathoms on its southern limit.

There is a shoal head, with a depth of 4¼ fathoms, 1¼ cables S. 53° E. from the position of the above 2¼ fathoms.

b. A shoal, named Kohira sho, with a depth of one fathom over it, situated with Goza saki summit bearing S. 61° W., distant 16 cables, and Clump (233 feet) N. 56° W. This shoal extends about one cable S. 5° W. from the above position, the depth on its southern limits being 1¾ fathoms, but as defined by the 5-fathom contour line it extends nearly 3 cables in the same direction.

c A shoal, named Sato ne, with a depth of one fathom over it, situated with Goza saki summit bearing S. 58° W., distant 15¾ cables, and Clump (233 feet) N. 56° W.

From this position the shoal extends for a distance of 1¼ cables N. 80° W., there being a depth of 2¼ fathoms on its western edge.

d. The 5 fathom contour line extends from the coast southward of Hamagema ura across the entrance to a distance of 8¾ cables S. 8° E. from the Clump (233 feet).

Approximate position, Goza saki summit, lat. 34° 16½′ N. long. 136° 45½′ E.

(Variation 4° Westerly in 1904)

A new edition of Chart No. 994 will be issued when it has been corrected from the Japanese Chart recently received.

This Notice effects the following Admiralty Chart:—Mura and Goza harbours, No. 994: Also, Sailing Directions for Japan, etc., 1904, pages 340, 341.

PACIFIC OCEAN—Philippine Islands—Luzon, south coast.

Port Sorsogon.—Light established.

No. 140 third publication).—The British Admiralty has given notice (No. 238 of 1904) that, on 5th February 1904, a *white fixed* lantern light, elevated 120 feet above high water, and visible from a distance of 6 miles, was established on a tree situated on the north-western extremity of Bagatao island, port Sorsogon entrance

Approximate position, lat. 12° 49¾′ N., long. 123° 47¾′ E. on Chart No. 2395.

This Notice affects the following Admiralty Charts:—No. 2577, St. Barnardino and Mindoro straits; plan of Port Sorsogon on Chart No. 2395; Also, List of Lights, part VI. 1904, page 105; and Eastern Archipelago, part I., 1902, page 338.

PERSIAN GULF—Bushire to Muscat.

Wreckage westward of Ras-al-Mutaf.

No. 141 (third publication).—The Bombay Government has given notice (No. 41 of 1904) that the Master of S.S. *Kola* reports that during his voyage from Bushire to Muscat, he passed in Latitude 27° 42′ N., Longitude 51° 16′ E. and 19 fathoms of water a mast step uppermost and appearing to be attached to sunken wreckage.

It showed 4 feet out of water and about 1½ feet in diameter.

This Notice affects the following Admiralty Chart :—Persian Gulf, northern portion, etc., No. 2837b; also Persian Gulf Pilot, 1898, page 258.

BAY OF BENGAL—Hooghly river.

Coucolly light increased in intensity.

No. 142 third publication).—The Commissioners of the Port of Calcutta have given notice, dated 25th April 1904, that on and after the first day of November 1904, the existing fixed white light exhibited from a white tower 62 feet above high water, 2 miles S.S.W. of Kedgeree point, will be increased in intensity from about 500 standard candles to 1,250 standard candles or 1¼ lighthouse units.

The new apparatus will be dioptric; but the character of the light will remain unchanged. The light will be visible between the bearings of N. 13° E. through North to N. 83° W.

The light will be visible in clear weather from a distance of 13 nautical miles.

Note.—The bearings are magnetic, and those concerning the visibility of lights are given from seaward.

Position.—Lat. 21° 50′ 10″ N. long 87° 56′ 9″ E.

This notice affects the following Admiralty Charts :—River Hooghly, Calcutta to Saugor Point, No. 136; the Sandheads, False Point to Matlah river, No 814; Bay of Bengal, No. 70; India, Coconada to Bassein river, No. 829; also List of Lights, Part VI, 1904, No 353.

RESOLUTION RECORDED ON THE ANNUAL RETURNS OF THE LUNATIC ASYLUMS IN BENGAL FOR THE YEAR 1903.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 12th May 1904.

RESOLUTION No. 577T.—M.

READ—

The Annual Returns of the Lunatic Asylums in Bengal for the year 1903.

Read also—

The Triennial Report on the working of the Lunatic Asylums in Bengal for the three years 1900—1902 and the Resolution recorded by Government thereon.

The returns, which were received by the Government before the prescribed date, have been prepared in accordance with the instructions contained in the Resolution of the Government of India in the Home Department, No. 21—31, dated the 12th January 1904.

2. The Inspector-General of Civil Hospitals points out in the notes that the number of new admissions, the daily average population, and the total number treated were the highest on record, and he suggests that lunatics are brought into the Asylums more frequently and freely than in

former years. The increase between the years referred to by him is, however, not greater than is accounted for by the increase in the total population of the Province. Attention is also drawn to the fact that the death-rate is higher in Bengal than in some other Provinces. The explanation no doubt is that the total capacity of the Asylums in Bengal is smaller in proportion to the total population of the Province than that provided elsewhere; for when only a smaller proportion of the lunatics can be treated preference must be given to the worst cases, and among these naturally there is a larger mortality. The average number of inmates per 1,000 of population was ·01[illegible] in Bengal as compared with ·051 in Bombay,* ·051 in Burmah, and ·023 in the Punjab. The same explanation probably accounts for the large number discharged as cured in Bengal, which was 96·44 per mille against 66·41 in Bombay, 80·83 in Burmah, and 70·18 in the Punjab. The daily average number of inmates in Bengal was 1,053·70, while the capacity of the Asylums was only 1,188.

* Figures for other Provinces are from Reports for 1902, except those for the United Provinces, which are for 1901.

3. The Inspector-General of Civil Hospitals points out that the most serious item in expenditure is the cost of diet. This has increased considerably more in recent years than either the rise in prices or the larger average population appears to account for. In the five years ending in 1892 the average cost per patient for diet was Rs. 33-13-1, but in the year under review it had risen to Rs. 47-11-6, or by 41·11 per cent. In the different Asylums the percentage of increase was as follows:—Dullunda 32·60, Dacca 15·02, Patna 51·18, Berhampore 18·34, and Cuttack 12·21. An explanation should be obtained of the large increase in the last-named Asylum. Figures for this comparison are not available for Bhawanipur. On the other hand, if the comparison be made with the quinquennial period ending with 1902, it will be found that there has been an actual decrease, the total cost of diet in the year 1903 having been less than in the year 1902 and almost the same as in the year 1901. It is also satisfactory to note that the average total cost per patient in Bengal (Rs. 130) is less than in Bombay (Rs. 174), Madras (Rs. 172), the Punjab (Rs. 166), or Burmah (Rs. 149), although it considerably exceeds the figure shown for the United Provinces (Rs. 95).

4. It is undeniable that the arrangements at the Asylums are in many respects far below the standard of the present day. Especially is this the case in Bhawanipur, where the patients are shut in, and where their surroundings are not conducive to successful treatment. At other Asylums also, although more space is available, there is an absence of the skilled supervision which can only be obtained by the continuous presence of a highly trained specialist. To render it possible to provide such treatment at a reasonable cost concentration of these Asylums is necessary, and such a measure has become practicable owing to the fact that almost all districts are now accessible by railway. The arrangements for carrying out this reform are already far advanced in the case of native lunatics; and it is hoped that it may be found feasible to carry out a similar reform in the case of European lunatics: the matter is receiving earnest attention. Although, however, the medical officers in charge have had to work under great disadvantages, the Lieutenant-Governor notices with much satisfaction the opinion recorded by the Inspector-General of Civil Hospitals that the Asylums have been carefully and judiciously managed throughout the year.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secretary to the Government of Bengal.

FINAL FORECAST OF THE WHEAT CROP OF BENGAL, 1903-1904

The 16th May 1904.—The following is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Forecast of the Wheat crop of Bengal, 1903-1904.

Preliminary.—Wheat is grown chiefly in the Biha districts; also in Murshidabad, Nadia, Rajshahi, Rangpur, Pabna, Hazaribagh, and Palamau.

2. *Character of the season.*—The heavy rains in October favoured the retention of moisture by the soil during the wheat-growing season. In November light showers were obtained all over the Province, except in Bihar, where, however, the bulk of the wheat crop is raised. December was practically rainless, but the crop in Bihar was much benefited by the January rains. In February the rainfall was more general and copious. On the whole, the season has been moderately favourable.

3. *Area sown.*—The normal area under wheat in these Provinces is at present estimated at 1,498,500 acres, while the area planted this year is returned at 1,508,600 acres, against 1,117,000 acres sown last year.

4. *Character of the crop.*—From Appendix I, in which the district returns have been summarised, it will be seen that out the nineteen large wheat-growing districts in the Province, only Patna reports a crop of over 100 per cent. Five districts, viz., Rajshahi, Pabna, Gaya, Saran, and Malda report a normal crop of 100 per cent. Monghyr and the Santhal Parganas expect a 95 and a 98 per cent. crop respectively. In four districts (viz, Shahabad, Darbhanga, Purnea, and Hazaribagh) the outturn varies between 80 to 86 per cent., and in the remaining seven it varies between 60 to 78 per cent. Since the publication of the preliminary forecast in February last prospects improved in five districts out of the nineteen chief wheat-growing districts, remained stationary in six and deteriorated in eight. The provincial outturn according to the present estimate of the District Officers amounts to 85 per cent., of a normal crop, against 89, which was their estimate in the Preliminary Forecast.

Considering the favourable condition of the season, the provincial outturn may safely be estimated at 90 per cent. of a normal crop.

5. *Food-stocks and the prices of food-grains.*—The harvests of the year are generally reported to be a little below the normal, but the prices were easier than in the previous year. This may be partly ascribed to sufficient stock left from the harvest of the previous year, but I would ascribe it mainly to better harvests actually obtained. The stock in hand, though not plentiful, is sufficient for the requirements of the Province.

6. *Gross outturn.*—According to the estimates of the District Officers, the gross yield of wheat in the Province will, this year, amount to 527,800 tons, as compared with 485,900 tons of the past year.

7. *Imports of wheat into Calcutta.*—From the statistics of the wheat trade quoted on the margin, it will be noticed that there was during the year under report a considerable decrease of imports of wheat into Calcutta from Bengal and Bihar. This is probably due to good crops in other Provinces of India, and consequent less demand from these Provinces.

Imports of wheat into Calcutta from the calender year 1891 to 1901.

FINAL FORECAST ON THE OILSEED CROPS OF BENGAL, 1903-1904.

The 16th May 1904.—The following note is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final forecast of the Oilseed Crops of Bengal, 1903-1904.

Explanatory.—This forecast furnishes the final estimates of the area and outturn of the different kinds of oilseeds, both *bhadoi* and *rabi*, grown in these Provinces. The chief oilseed crops are mustard (white and brown) and rape, sesamum (*til*), linseed, castor, Niger oilseed (*sirguja*), and *eruca sativa* (*tárámani*). Mustard and rape occupy about 50 per cent. of the total area under oilseeds, and linseed occupies about 25 per cent. The bulk of the mustard and rape is cultivated in the districts of the Rajshahi Division, in Dacca, Mymensingh, Purnea, and the Sonthal Parganas. Linseed is chiefly grown in Darbhanga, Saran, Champaran, Gaya, and Nadia. *Til* or ginjelly is grown principally in Jessore, Bogra, Pabna, Dacca, Mymensingh, Backergunge, Tippera, Noakhali, Midnapore, Gaya, Angul, Hazaribagh, and Palamau.

2. *Character of the season.*—The heavy rainfall of October has been reported to have injuriously affected the *rabi* oilseed crops in some districts, while in some others it is reported to have helped the retention of moisture by the soil and done much good to these crops. Probably where sowing of mustard and linseed had been done before these heavy rains, the crops have been damaged and resowing may have been found necessary, but, on the whole, I should say that the heavy rains benefited both the *bhadoi* and the *rabi* oilseed crops. These were followed by only light showers in November, except in the Patna and Bhagalpur Divisions, where, owing to want of rain in November and December, the crops have suffered. Throughout Bihar and North Bengal, however, light showers were obtained in January, and in February the showers throughout the Province were fairly copious. March and April were practically rainless; but this only facilitated harvest operations. I do not see much ground for concluding that weather conditions were worse

since the preliminary forecast, and, on the whole, the season was favourable for the *rabi* crops.

3. *Area sown.*—The total normal area under different oilseed crops is now estimated at 3,878,900 acres. The area cropped in the current year is returned at 3,829,500 against 3,657,700 acres sown last year.

4. *Character of the crop.*—It will be seen from Appendix I, that six districts, viz., Dinajpur, Pabna, Dacca, Gaya, Purnea, and Malda have reported a normal crop; 14 districts 90 to 99 per cent.; 14 other districts 80 to 89 per cent.; 10 districts 60 to 69 per cent., and Nadia 58 per cent. According to the district estimates, the outturn of the Province, as a whole, amounts to 84 per cent. of an average crop, against 90 per cent., which was the return in the preliminary forecast. As conditions improved since January, I regard the present estimate as unduly low, and I do not think the outturn for the Province, as a whole, will fall below 90 per cent.

5. *Gross outturn.*—Taking 6 maunds per acre to be the normal rate of outturn for linseed, rape and mustard, and 4¼ maunds per acre for other oilseeds, the gross yield of all the oilseed crops for these Provinces during 1903-1904 amounts to 663,600 tons against 609,700 tons produced in the preceding year.

Offg. Director of the Dept. of Land Records and Agriculture, Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM FOR THE MONTH OF APRIL 1904.

At the beginning of the month pressure was practically normal over the whole Province' while temperature was everywhere above the normal. On the 1st a fall of the barometer set in in the west, and extended over the whole Province on the following day. Though the downward course was checked on the 3rd, it was resumed with increasing rapidity on the 4th, 5th, and 6th; the defect from the normal on the latter date amounting at approximately $\frac{3}{10}$ths of an inch in the south of the Province. An equally sharp recovery on the two succeeding days had the effect of re-establishing normal conditions, so that on the morning of the 8th pressure was not far removed from the average, there being slight excess over the northern and eastern portions of the Province and slight defect over the remainder. At the beginning of this period fresh southerly winds had set in at the head of the Bay, and gathering force from day to day were causing a strong indraught of moisture into the eastern and northern parts of the Province. Rainfall, which at the end of March had been isolated and confined to Assam, began about the 4th of April—favoured as it was in addition by the fall of the barometer which then set in—to extend to the eastern and northern parts of the Province. This strong indraught was no doubt due mainly to the high day temperatures prevailing in the western interior, which caused a sharp gradient of pressure from the head of the Bay to the west of the Province. From the 8th to the 16th pressure, with only a small check on the 12th and 13th, fell steadily. The defect on the 16th was everywhere large, and amounted in some places to $\frac{1}{4}$th of an inch. Day temperatures in the west of the Province remained steadily high and largely above the average—conditions which fostered the formation of an area of unusually low pressure in that quarter and the continued powerful indraught of humid air from the Bay into the eastern and northern parts of the Province. On the other hand, in the west and south-west comparatively dry westerly winds were blowing steadily during this period. In consequence of this circulation, rainy weather prevailed during almost the whole period in Assam and East Bengal and to a large extent in North Bengal as well. The only days on which the showery weather extended to the remaining parts of the Province were the 8th and 9th, but the showers which then fell in these parts were for the most part insignificant. It may be noticed with respect to the temperature during this period that although the day temperatures naturally fell in the parts affected by the rainfall, the mean remained for the most part above the normal, chiefly owing to comparatively high night temperatures. On the 16th a marked change in the conditions took place, a sharp general rise of the barometer commencing on that date and continuing for the next few days. Owing to this rise pressure was nearly normal on the 19th, and continued so with slight fluctuations till the 22nd. During this period of rise day temperatures had fallen in Bihar and Chota Nagpur, and the winds at the head of the Bay had diminished in force. Rainfall consequently decreased, the 16th and 17th being the only days of the month with the exception of those at the beginining on which the whole Province was free from rain. From the 18th, however, onward day temperatures on the west of the Province again began to increase, and in response to this rise a corresponding access of strength was noticeable in the winds at the head of the Bay. Showery weather in consequence once more gradually established itself in Assam and the northern and eastern portions of the Province. Temperature during the first days of this period fluctuated in the north and east portions of the Province, but towards the end began to fall, so that on the 22nd it was in general defect. From the 22nd to the 27th a moderate surge of pressure took place, a considerable fall being followed by a still more considerable rise, with the result that on the latter date pressure was in moderate excess over the Province. During this period the distribution of pressure was not so favourable as it had been for the indraught of moist winds from the Bay. Though temperature still continued excessive in the west, the day temperature had risen in the north as well, so that winds over the Province were more southerly. Rainfall consequently almost ceased in East Bengal, though it still continued in North Bengal and Assam. During the last days of the month the character of the weather did not change materially. On the 28th a fall of pressure set in and continued on the next day. A slight recovery on the 30th resulted in the pressure on that day being nearly normal with a slight excess in the eastern and a slight defect in the western half. The distribution again became more favourable for rainfall in Assam and the northern and eastern portions of the Province, and precipitation consequently increased again. During the latter as well as the former half of the month, the conditions were such as to practically confine the rainfall to Assam and the last mentioned parts of Bengal.

General summary of weather.—The weather during the month was characterised by great uniformity. With almost constant high day temperatures in South Bihar and Chota Nagpur a persistent area of low pressure maintained itself in that quarter, causing a very strong indraught of humid air from the Bay with a circulation giving south-west winds in the south-west portions of the Province, while over East and North Bengal and Assam the directions curved from south through south-east and east to north-east. Owing to the persistence of these conditions during the greater part of the month the winds at the head of the Bay were largely above normal strength, while the rainfall, copious in Assam and the northern and eastern parts, was extremely scanty over the remainder of the Province.

Summary of pressure.—Pressure was nearly normal both on the first day and on the last day of the month. Between these dates there were four marked oscillations of pressure, the first two showing an amplitude much greater than is usual. Though, however, pressure recovered at the end of the month to very nearly its original phase, the long period of falling barometer, from the 7th to the 16th, brought the mean pressure of the month below the normal, and caused a defect over the whole area, varying from a minimum of $\frac{5}{1000}$ in Burmah to $\frac{80}{1000}$ in South-West Bengal.

Summary of temperature.—The conditions noted in the report indicate an excessive maximum temperature in the western half of the Province, enduring almost continuously for the whole month. This excess extended also to the night temperatures. On the other hand, as soon as the showery and cloudy weather had established itself in the eastern half, day temperatures naturally fell, while the humidity of the atmosphere helped to maintain the minima at a level above the normal, which was, however, counteracted to a certain extent by the low minima which occurred when rain actually fell during the night. The general result is that while mean maxima are in excess in the western half and in defect in the eastern half of the Province, mean minima are above the normal over the whole Province, the excess, however, diminishing to zero as we approach the extreme east and north-east of the Province.

Summary of rainfall.—As already noted, rainfall was very scanty in the south-west and western parts of the Province, being considerably below the normal in South-West Bengal, Chota Nagpur, Orissa, and Bihar, while rainfall was very considerably in excess in North and East Bengal and Assam. The conditions prevailing in normal years are of course always such as to induce a much larger precipitation in the latter than in the former divisions of the Province, but in the present year these conditions were strikingly exaggerated, leading to the marked contrast above noted between the rainfall in the eastern and western halves of the Province.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the month of April 1904:—

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four foot above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 80, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

NOTIFICATIONS.

No. 2024J.—The 21st May 1904.—In exercise of the power conferred by section 34 of Act V of 1861 (the Police Act, 1861), the Lieutenant-Governor is pleased to extend that section to the town of Bangaon, in the district of Jessore, within the boundaries specified below:—

Jessore.

North.—An imaginary line starting from a point on the Bangaon-Garapota road, being 27 chains from its junction with the Calcutta-Jessore road and following the western, northern and eastern boundaries of the village of Joypur, terminating at a point on the Calcutta-Jessore road 28 chains east of its junction with the Bangaon-Garapota road, or, in other words, 3 chains short of the 27th mile-post.

South.—The Railway fencing of the Ranaghat Branch of the Bengal Central Railway, extending from the Bangaon Railway station to the 21st gate of the Ranaghat Branch line.

East.—An imaginary line drawn from the Bangaon Railway station along the Railway fencing till it crosses the Railway culvert over the Bangaon khal; thence, following the Bangaon khal to its junction with the Ichamati river; thence to a point on the Jessore-Calcutta road, where it joins the northern boundary line described above.

West.—An imaginary line drawn from gate No. 21 of the Ranaghat Branch of the Bengal Central Railway, past and including the site of the old *post-mortem* shed till it crosses the Ichamati river at the Khairamari burning ghat, so as to include the same, and thence joining the northern boundary at the 27th chain of the Bangaon-Garapota road.

2. So much of the notification of the 5th June 1883, published at page 485, Part I of the *Calcutta Gazette* of the 13th idem, as relates to the town of Bangaon, is hereby cancelled.

No. 1050J.D.—The 23rd May 1904.—Under section 3, Act I (B.C.) of 1876 an Act to provide for the voluntary registration of Muhammadan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Khondkar Obaidullah, authorising him to register Muhammadan marriages and divorces, and to exercise the other functions of a Muhammadan Registrar within thanas Santipur, Ranaghat, and Chakdaha, in the district of Nadia.

The 24th May 1904.

No 28.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Dudhai canal, section VI, in the villages of Balioil, Kordapimpal, Naranpur, Kuanrpur, Anyasipur, Haldiapat, and Baringi, pargana Kalamatia, and Arilo, pargana Tisania, zilla Cuttack, it is hereby declared that for the above purpose a piece of land measuring, more or less, 20 acres of standard measurement, commencing from plot No. 295 of village Balibil, passing through the cultivated and waste lands of villages Balibil, Kordapimpal, Naranpur, Kuanrpur, Anyasipur, Haldiapat, Baringi, and Arilo, and terminating in plot No. 773 of Arilo, is required within the aforesaid villages of parganas Kalamatia and Tisania.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Officer, Cuttack.

No. 29.—Notification.—It is hereby notified for general information that the Lieutenant-Governor of Bengal is pleased, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force on the Calcutta Canals and Tolly's Nala with effect from 1st July 1904.

A draft of these rules was published in the *Calcutta Gazette* of the dates noted in the margin as Notification No. 20, dated the 11th April 1904.

13th, 20th and 27th April and 4th, 11th and 18th May 1904.

D. B. HORN,
Secy. to the Govt. of Bengal.

Revised Rules for the Calcutta Canals and Tolly's Nala.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala":—

I.—The Circular Canal comprising the still-water canal between the Dhappa and Chitpur Locks and the New Cut Canal from Ultadingi to Dhappa Lock, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Circular Canal at the Dhappa Lock to its junction with the Biddiadharee at Bamunghatta.

III.—The Nowbhanga khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhappa Inspector's residence.

V.—Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Biddiadharee river at Samookpota.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and other square built boats.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.— The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of boats exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—Provided that in the case of vessels which enter the canals at Chitpore, Kidderpore and Chetla empty, for the purpose of loading therein, the depth shall be measured from the line of usual immersion when fully loaded as visible on the outside of the vessel to the bottom (interior) of the vessel, and not from the line of actual immersion at the time of measurement.

Class II.—

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of Class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of Class II which are furnished with reliable way-bills the gross maundage of cargo shown by the way-bills may at the option of the employer of the vessel be taken as the maundage on which toll will be charged. Provided that firms or individuals who wish to make use of this rule, must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of one rupee. Provided that for tickets on which the total tollage is less than four rupees, the fee to be charged for a duplicate shall be one quarter of the total tollage.

7. A vessel which has been detained under these rules or under section IX of the Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjee, owner, or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those exempted by the provisions of Bengal Government Notification No. 261, dated the 21st July 1890.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor appointed by the Lieutenant-Governor, under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

10. At places where mooring posts have been provided by the Supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor may direct and shall not be moored in any other manner.

11. The Supervisor may by written notice to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or *huggees* in any specified part of the Canals or on the banks.

12. Boats shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other boats.

13. Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

14 In portions of the canals where only one towing path exists, vessels shall moor on the side opposite to the towing path, and the towing path side shall always be kept clear.

15. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the lock.

16. No fire, or open or unprotected light of any description, shall be used on boats containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

17. No person shall wilfully or negligently allow a vessel to sink in the canals.

18 In every case of a sunken vessel whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner.

19. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure directed in section IX of the Act.

20. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

21. When any laden vessel which has sunk, has been recovered; or, when any laden vessel has been seized under the provisions of the Act, or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

22. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 21 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

23. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal.

24. *Lights and signals.*—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

25. *Speed of vessels.*—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

26. For any contravention of Rules 7, 11, 12, 13, 14, 16, 17, 23, 24, and 25 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement

27. No boats will be allowed to remain between the Dwarf walls of the entrance channels to the Dhappa and Chitpur Locks.

No. 30.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Jangipur Toll Office, in the village of Taraf Kaliai, pargana Rukunpur, zilla Murshidabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas 13 cottahs and 12 chitaks of standard measurement, bounded on the north by the houses belonging to Shyama Charan Sinha and Bhajahari Nath, on the east by the road to Jangipur Sahebnagar, south by the pathway north of Jangipur H. No. 56 Marine.—The following bye-laws, which have been framed by the Commissioners of the Port of Calcutta under sections 126 and 127 of the Calcutta Port Act, 1890, for vessels discharging cargo at the Jetties, are published for general information. They will be taken into consideration on the expiry of a month after their publication in the Gazette, and the Lieutenant-Governor will be pleased to consider any suggestions or observations which may be made regarding them by any person within that period.

D. B. HORN,
Secy. to the Govt. of Bengal.

Proposed bye-laws for vessels discharging cargo at the Jetties framed by the Commissioners under sections 126 and 127 of the Calcutta Port Act, 1890.

1. No vessel shall remain berthed at the Jetties longer than is necessary for the discharge of her cargo.

2. If any vessel shall not have completed the discharge of her cargo at the expiration of ten working days after first coming alongside the Jetties, and if there shall be any other vessel then waiting for a berth, it shall be lawful for the Commissioners, or the Harbour Master, to remove such first-mentioned vessel to moorings in the stream in order to provide accommodation at the Jetties for the vessel so waiting as aforesaid.

3. The allotment of a fresh berth at the Jetties for any vessel so removed as aforesaid shall be at the discretion of the Commissioners; but as a general rule such vessel will be accommodated next in order after all other vessels lying off the Jetties at the time of her removal.

4. Masters and owners of vessels shall obey the directions of, and shall offer no obstruction to, the Harbour Master or Jetty Officers in mooring, unmooring, moving or removing vessels from the Jetties in pursuance of the foregoing bye-laws.

5. Any person committing an infringement of any of the foregoing bye-laws shall be liable to a fine not exceeding Rs. 500, and when the breach is a continuing breach, to a further fine, which may extend to Rs. 200, for every day after the first during which the breach continues.

No. 55 Marine.—Notification.—The following draft of rules which it is proposed to make under the Indian Petroleum Act, 1899, is published for the information of persons likely to be affected by the rules.

The draft will be taken into consideration on or after the 11th July, 1904, and any objections or suggestions which may be received by the undersigned before that date will be duly considered:—

Draft rules

In exercise of the power conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to make the following additional rules to regulate the granting of licenses to possess dangerous petroleum (otherwise than in bulk) in or near the town of Calcutta, and to direct that they be inserted after rule 4 in the rules published under Notification No. 24 (Marine), dated the 15th March, 1901:—

"4A. Notwithstanding anything in rules 3 and 4, licenses for the possession of dangerous petroleum (otherwise than in bulk) within or near the town of Calcutta shall not be granted unless the following special conditions are imposed, namely:—

(*a*) the quantity of petroleum covered by a license shall not exceed 3,000 gallons;

(*b*) the building in which the petroleum is to be stored must be constructed of masonry, with a terraced, tiled or iron roof, and with a tiled, paved or earthen floor;

(*e*) the doorways and other openings of such building must be built up to such a height above the level of the road or street, or the floor of such building must be sunk to such a depth below the level of the road or street, that the petroleum stored in it cannot flow out from the building in case of its escape from the receptacles in which it is contained; *or* the building itself must be surrounded with a masonry wall sufficiently high to contain all the petroleum stored in the building in case of its escape from the building; *or* a combination of these methods may be adopted;

(*d*) there must be a clear open space of at least 150 feet round such building;

(*e*) the drums or other receptacles in which the petroleum is contained must fulfil the following conditions, namely:—

(*i*) they must be of gas-tight iron or steel, of at least $\frac{1}{8}$th of an inch in thickness, containing not more than 10 gallons and fitted with well-made filling holes and well-fitting screw plugs, *or* of gas-tight tinned sheet iron, containing not more than 10 gallons, and fitted with screw caps with metal air-tight under caps or fitted with well-fitting screw plugs, and, if of the latter description, they must be packed in strong wooden cases, the thickness of the wood to be not less than $\frac{1}{2}$ an inch;

(*ii*) they must be so substantially constructed and secured as not to be liable, except under circumstances of gross negligence or extraordinary accident, to be broken or become defective, leaky or insecure in transit;

(*iii*) the nature of the contents, and also the words "highly inflammable," must be distinctly marked on each; and

(*iv*) an air space of at least $\frac{1}{10}$th its capacity must be left in each drum or other receptacle at the time of filling.

(*f*) no smoking, or light or fire of any description, shall be permitted at any time within or near any building licensed under this rule;

(*g*) no drum or other receptacle containing dangerous petroleum shall be opened, or the petroleum drawn off, within or near any building licensed under this rule.

"4B. Nothing in these rules shall affect the rules relating to the grant of licenses to possess dangerous petroleum for use in motor cars or cycles."

A. PEDLER,

Director of Public Instruction, Bengal.

Yearly Examination of Candidates for fourth grade of Accountants.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 4th and 5th July 1904, at 10-30 A.M., both days :—

SUBJECTS.	Full marks.	Minimum pass marks.
Writing (neatness, clearness and rapidity)	100	50
Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole)	240	160
Mensuration (*a*) the whole	60	30
Book-keeping (*b*) mercantile	100	50
Total ...	600	...

Minimum required in all papers collectively, 400.

(*a*) Todhunter's Mensuration for Beginners.
(*b*) "Book-keeping," by Ball and Hamilton.
"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burma only). The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed ; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application).

(2) Certificate of age (baptismal or of birth), not required, if the candidate is already in permanent Government employ.

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. Passed candidate should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rupees ten.

No. 1860I A.—The following Orders of His Majesty the King in Council, which were published in the *London Gazette*, dated the 8th March 1904, are republished for general information:—

AT the Court at *Buckingham Palace*, the 7th day of *March* 1904.

PRESENT:

The KING'S Most Excellent Majesty in Council.

WHEREAS by section 18 of the Extradition Act, 1870, it is, amongst other things, enacted that, if by any law made after the passing of the said Act by the Legislature of any British Possession, provision is made for carrying into effect within such Possession the surrender of fugitive criminals who are in, or suspected of being in, such

British Possession, His Majesty may, by the Order in Council applying the said Act in the case of any Foreign State, or by any subsequent Order, direct that such law or any part thereof shall have effect in such British Possession, with or without modifications or alterations, as if it were part of the Act:

And whereas an Act, entitled "The Indian Extradition Act, 1903," has been passed by the Governor-General of India in Council, and it is expedient to declare that Chapter II of the Act shall have effect as if it were part of the Extradition Act, 1870:

NOW, THEREFORE, His Majesty, in pursuance of the Extradition Act, 1870, and in exercise of the power in that behalf in the said Act contained, doth by this present Order, by and with the advice of His Privy Council, declare that Chapter II of the Indian Extradition Act, 1903, shall have effect in British India as if it were part of the Extradition Act, 1870.

And the Right Honourable St. John Brodrick, one of His Majesty's Principal Secretaries of State, is to give the necessary directions herein accordingly.

A. W. FitzRoy.

AT the Court at *Buckingham Palace*, the 7th day of *March* 1904.

PRESENT:

The KING'S Most Excellent Majesty in Council.

WHEREAS by section 32 of the Fugitive Offenders Act, 1881, it is amongst other things enacted that if the Legislature of a British Possession pass any Act or Ordinance:—(1) For defining the offences committed in that Possession to which this Act or any part thereof is to apply; or (2) for determining the court, judge, magistrate, officer, or person by whom and the manner in which any jurisdiction or power under this Act is to be exercised; or (3) for payment of the costs incurred in returning a fugitive or a prisoner, or in sending him back if not prosecuted or if acquitted, or otherwise in the execution of this Act; or (4) in any manner for the carrying of this Act or any part thereof into effect in that Possession; it shall be lawful for His Majesty by Order in Council to direct, if it seems to His Majesty in Council necessary or proper for carrying into effect the objects of this Act, that such Act or Ordinance, or any part thereof, shall with or without modification or alteration be recognised and given effect to throughout His Majesty's Dominions and on the high seas as if it were part of this Act:

And whereas an Act, entitled "The Indian Extradition Act, 1903," has been passed by the Governor-General of India in Council, and it is expedient to declare that Chapter IV of the Act shall have effect as if it were part of the Fugitive Offenders Act, 1881:

NOW, THEREFORE, His Majesty, in pursuance of The Fugitive Offenders Act, 1881, and in exercise of the power in that behalf in the said Act contained, doth by this present Order, by and with the advice of His Privy Council, declare that Chapter IV of the Indian Extradition Act, 1903, shall be recognized and given effect to throughout His Majesty's Dominions and on the high seas as if it were part of the Fugitive Offenders Act, 1881.

And the Right Honourable St. John Brodrick, one of His Majesty's Principal Secretaries of State, is to give the necessary directions herein accordingly.

A. W. FitzRoy.

No. 1861I.A.—With reference to the Notification of the Government of India in the Foreign Department, No. 1860I.A., dated the 13th May 1904, and in exercise of the power conferred by section 1, sub-section (*3*) of the Indian Extradition Act, 1903 (XV of 1903), the Governor-General in Council is pleased to direct that the said Act shall come into force on the 1st day of June 1904.

No. 1862I.A.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and by section 22 of the Indian Extradition Act, 1903 (XV of 1903), and in supersession of all previous rules on the same subject, the Governor-General in Council is pleased, with effect from the 1st day of June 1904, to make the following rules, namely:—

1. The Political Agent shall not issue a warrant under section 7 of the Indian Extradition Act, 1903 (hereinafter referred to as "the said Act"), in any case which is provided for by Treaty, if the State concerned has expressly stated that it desires to abide by the procedure of the Treaty, nor in any case in which a requisition for surrender has been made by or on behalf of the State under section 9 of the said Act.

2. The Political Agent shall not issue a warrant under section 7 of the said Act except on a request preferred to him in writing either by or by the authority of the person for the time being administering the Executive Government of the State for which he is a Political Agent, or by any court within such State which has been specified in this behalf by the Governor-General in Council, or by the Governor of Madras or Bombay in Council, as the case may be, by notification in the official Gazette.

3. If the accused person is a British subject, the Political Agent shall, before issuing a warrant under section 7 of the said Act, consider whether he ought not to certify the case as one suitable for trial in British India, and he shall, instead of issuing such a warrant, so certify the case, if he is satisfied that the interests of justice and the convenience of witnesses can be better served by the trial being held in British India.

4. The Political Agent shall, in all cases before issuing a warrant under section 7 of the said Act, satisfy himself, by preliminary inquiry or otherwise, that there is a *primâ facie* case against the accused person.

5. (*1*) The Political Agent shall, before issuing a warrant under section 7 of the said Act, decide whether the warrant shall provide for the delivery of the accused persons—

(*a*) to the Political Agent or to a British officer subordinate to the Political Agent with a view to his trial by the Political Agent, or

(*b*) to an authority of the State with a view to his trial by the State Courts.

(*2*) Before coming to a decision the Political Agent shall take the following matters into consideration :—

(*i*) the nature of the offence charged ;

(*ii*) the delay and trouble involved in bringing the accused person before himself ;

(*iii*) the judicial qualifications of the courts of the State ;

(*iv*) whether the accused person is a British subject or not ; and if he is a British (other than European British) subject, whether the courts of the State, either by custom or by recognition, try such British subjects surrendered to them ; and

(*v*) whether the courts of the State have, by custom or by recognition, power to inflict the punishment which may be inflicted under the Indian Penal Code for an offence similar to that with which the accused person is charged.

6. Notwithstanding anything in rule 5, the Political Agent shall make the warrant provide for the delivery of the accused persons to himself (or to an officer subordinate to himself), or to an authority of the State concerned, as the case may be, if he is generally or specially instructed by the Governor-General in Council to try an accused person himself or to make him over for trial to the proper court of such State.

7. In the case of an accused person made over for trial to the Court of the State, the Political Agent shall satisfy himself that the accused receives a fair trial, and that the punishment inflicted on conviction is not excessive or barbarous ; and, if he is not so satisfied, he shall demand the restoration of the prisoner to his custody, pending the orders of the Governor-General in Council.

8. A return of all persons made over for trial to the Courts of a State shall be submitted half-yearly by the Political Agent to the Government of India or to the Government of Madras or Bombay, as the case may be, in the following form :—

Half-yearly return under rule 8 of the rules under the Indian (Foreign Jurisdiction) Order in Council, 1902, and the Indian Extradition Act, 1903 (XV of 1903), of persons made over for trial by the Courts of the State of

during the period ending

Number.	Name of person.	Nationality.	Offence with which charged.	Where arrested.	Date of surrender.	Native State to which surrendered for trial.	Reasons for surrender.	Nature of sentence passed.	REMARKS.

9. Accused persons arrested in British India on warrants issued under section 7 or section 9 of the said Act shall be treated, as far as possible, in the same way as persons under trial in British India.

10. A person sentenced to imprisonment by a Political Agent shall, if a British subject, be conveyed to the most convenient prison under British administration, and shall there be dealt with as though he had been sentenced under the local law :

Provided always that this rule shall not be construed so as to give such person any right of appeal other than that allowed by the rules for the time being in force for regulating appeals from the decisions of the Political Agent.

No. 1863I.A.—In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, the Governor-General in Council is pleased, with effect from the 1st day of June 1904, to direct that, for the purposes of any power or jurisdiction exercised under that Order, the law relating to offences and to criminal procedure for the time being in force in British India shall, subject as to procedure to such modifications as the Governor-General in Council from time to time directs, apply, so far as applicable, to all subjects of His Majesty.

NOTIFICATION.

No. 2295L.R.—The 23rd May 1904—The following is republished for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

No. 1—63-3, dated Simla, the 29th April 1904.

RESOLUTION—By the Government of India, Revenue and Agricultural Dept.

THE Bill to provide for the constitution and control of Co-operative Credit Societies in India has now been passed into law as Act X of 1904; and the Government of India desire to explain, for the information of their officers and of the public at large, the considerations by which they have been influenced in framing its provisions, and to indicate the principles in accordance with which they desire that the Act should be worked.

2. One of the most difficult problems with which the small agriculturist is everywhere confronted is to obtain the money which is necessary for his operations at a reasonable rate of interest. This is a state of affairs by no means peculiar to India. The petty agriculturist of Europe is for the most part financed by borrowed capital, and there too the money-lender takes advantage of the exigencies of the cultivator to demand exorbitant terms. In India, however, the problem is aggravated by the fact that Indian rates of interest are to some extent survivals from times when the security which the agriculturist had to offer was of far smaller value than at present, and also by the fact that the money-lender has not been slow to take advantage of the unwillingness of the Civil Courts to go behind the terms of a written bond.

3. The desirability of providing the peasant with some means of obtaining the capital required for agricultural operations otherwise than at usurious rates of interest has at various times engaged the attention of the Government of India and of all who are interested in promoting the welfare of the agricultural classes. In 1882 and 1883 a scheme for an agricultural bank in the Poona district was propounded by Sir William Wedderburn, then a member of the Bombay Civil Service, and by several intelligent and public-spirited residents of that Presidency; but the scheme, after careful examination, was, for various reasons, eventually abandoned.

4. In 1892 Mr. (now Sir Frederick) Nicholson, a Madras Civilian, who had made a special study of the Raffeisen and other systems of land banks on the continent of Europe, was placed on special duty by the Madras Government for the purpose of enquiring into the possibility of introducing into the Madras Presidency a system of agricultural or other land banks. His report was reviewed in 1899 by the Madras Government, who expressed the opinion that the question of rural credit in the Madras Presidency was not a matter of immediate necessity and urgency; and stated that if a few rural banks could be started on strictly Raffeisen lines and their working watched for a few years, the Governor in Council might then be in a position to make recommendations.

5. On receipt of Mr. Nicholson's report by the Government of India, copies were forwarded to Local Governments and opinions were invited as to the possibility and advisability of action by Government A reference was at the same time suggested to a recent publication by Mr. H. Dupernex, a member of the Indian Civil Service in the United Provinces, on Peoples' Banks in Northern India. It appeared from the replies received that the question had already been taken up independently in some provinces, more particularly in the United Provinces and in the Punjab. After some intermediate discussion, the opinions of Local Governments were considered in June 1901 by a strong Committee under the presidency of the Hon'ble Sir Edward Law; and it was on the report of this Committee, to which were attached a draft Bill and draft model schemes of management for co operative credit societies with limited and unlimited liability respectively, that proposals for action first assumed a form sufficiently definite to allow of detailed discussion. These proposals were referred to Local Governments for criticism, and upon receipt and consideration of their replies the Bill which has now been passed into law was framed.

6. Before proceeding to examine the detailed provisions of the Act, it will be convenient to indicate briefly the extent to which the co-operative principle has already been adopted with more or less success in different parts of India by the establishment of credit societies, to glance at the special difficulties that may retard its development in this country, and to give an indication of the general lines of the policy that must be followed, if a movement that may be of such enormous importance to the welfare of the rural population is to be pursued to a successful issue.

7. At the outset it is important to remember that the question of agricultural banks is quite a different matter from that of co-operative credit societies, and that it is the latter only which are now being dealt with. The object of agricultural banks is to provide capital to finance the general agriculture of the country; their operations are of the ordinary banking nature and on a considerable scale; and whatever special privileges it might be found possible to extend to them, the ordinary Companies law of India would still continue to apply to them. The object of the societies contemplated by this Act is far more special and limited. It is, in the words of Sir Frederick Nicholson, to substitute for a number of individual credits, which are weak because they are isolated, a combined credit, which is

strong because it is united. Their operations are confined within the limits of the society, and they will be "small and simple credit societies for small and simple folk with simple needs and requiring small sums only."

8. The most striking development of the co-operative principle on indigenous lines has taken place in Madras, where the Nidhis, which are described as Mutual Loan Funds, have, in spite of numerous failures, attained on the whole a very considerable degree of success. They are reported, however, not to adhere strictly in practice to the co-operative principle, and it has been pointed out that they work on lines more closely approximating to those of English Building Societies or Provident Funds than to those of purely co-operative credit societies; and that while they encourage the development of thrift and business habits, their methods are not suitable to the agricultural classes, and afford many openings for abuse. The spread of these institutions may be taken as giving some indication of the possibility of the successful development of credit societies on better lines, but they find their clients among a more highly educated and advanced class than the mass of the agricultural population. In other parts of the country the societies that have been started have hardly passed the experimental stage. In the United Provinces Mr. Dupernex was placed on special duty by Sir A. P. MacDonnell for the purpose of discovering by local enquiries how best to establish agricultural banks in selected localities; and in accordance with his recommendations steps were taken, at the suggestion of Government, for the establishment of societies in many districts. In the Punjab action was taken by district officers on their own initiative, and societies were formed in the Multan and Dera Ismail Khan districts by Mr. Maclagan and Captain Crosthwaite, which give distinct promise of success; and in Bengal several societies have been started, which, under the fostering influence of sympathetic officials, have made some progress. But it is difficult as yet to form any reliable opinion as to the extent to which any of these societies represent a genuine movement, or how far their existence is merely due to a desire to carry out what are believed to be the wishes of Government.

9. In considering the question it soon became apparent that no real advance was possible without legislation. The Companies Act at present in force (Act VI of 1882) contains 256 sections, and its elaborate provisions, however necessary in the case of combinations of capital on a large scale, are wholly unsuited to societies of the kind it is now desired to encourage. The first thing to be done, therefore, was to take such societies out of the operation of the general law on the subject, and to substitute provisions specially adapted to their constitution and objects. In the second place, it was desirable to confer upon them special privileges and facilities, in order to encourage their formation and assist their operations. And, thirdly, since they were to enjoy exemption from the general law and facilities of a special nature, it was necessary to take such precautions as might be needed in order to prevent speculators and capitalists from availing themselves, under colourable pretexts, of privileges which were not intended for them.

10. There were two cardinal objects which the Government of India kept in view in framing the present Act. The first is simplicity. Some of the schemes which were laid before them were far too elaborate for the comprehension of the classes for whom they were intended, but who certainly could never have complied with their provisions. The second is elasticity. The aim has been to lay down merely the general outlines, and to leave the details to be filled in gradually on lines which the experience of failure or success and the natural development of the institutions may indicate as best suited to each part of the country. So far, therefore, as it deals with the constitution of the societies, the provisions of the Act have been confined to those general principles which all co-operative credit societies must accept as the condition of being permitted to enjoy the advantages afforded by special legislation. There are other matters in respect of which some guidance and some restriction will be necessary; and they have been left to be dealt with by Local Governments in accordance with local needs, in the exercise of the rule-making power which the Act confers upon them. But the Government of India desire to impress upon all Governments that simplicity and elasticity are as essential in the rules framed under the law as they are in the law itself, and that especially in the first instance, and until further experience has been gained, the regulative interference of Government should be limited strictly to essentials, so as to leave spontaneous growth unhampered. Experiment is as necessary within the Province as it is within the Empire.

11. The present legislation is especially designed to assist agricultural credit, which presents a far more important and more difficult problem than does industrial credit, though it is recognised that societies may properly be started in towns also by non-agriculturists, and it is even possible that in some places the establishment of town banks may usefully precede and even assist the starting of purely agricultural societies. If in any town the people start a society on a co-operative basis of their own accord, it will be possible to encourage and help them, and to give them the benefit of official advice. But, in the opinion of the Government of India, it should be left to them to move in such cases; and local officers should be instructed that rural societies are to be their first care. The agricultural problem is more serious and far more difficult to deal with than the industrial problem, and it is necessary that effort should be concentrated.

12. It is proposed to allow urban societies free choice in the matter of liability; for rural societies unlimited liability has been prescribed as being most suitable as a general rule, seeing that the real co-operation which it is desired to encourage

is the utilisation of the combined credit for the benefit of the individual members But cases are conceivable in which it may be desirable to allow a limitation of liability to members of particular rural societies; if, for instance, a local magnate whose sympathy and assistance it is important to secure desires to become a member, but does not care to assume a liability which is wholly without limit. In such cases, the system of guarantees, the liability of each member being limited to the amount of his guarantee, may be usefully adopted. The Act therefore gives the Local Government power, by special order, to relax the rule of unlimited liability.

13. Under the Bill as originally framed, rural societies were to be limited to agriculturists—a term which it was explained was not meant to include the wealthy rent-receiver; while urban societies were to consist of only men of small means. To these provisions it was objected that they excluded the very men whose aid was most important to the new societies. The provisions had been framed upon the supposition that the men of light and leading, and still more important, perhaps, the men of substance, the necessity for whose aid and sympathy was fully recognised, would assist the societies from outside, since they would have nothing to gain by membership, as they would not desire to borrow. But the body of opinion in favour of a wider basis of membership, not only in order to extend the scope of these societies as widely as possible, but also to secure that diversity of needs and interests which is desirable if their funds are to be utilised to the best advantage, was very weighty; and all restrictions upon the class of persons who may be members have therefore been removed, save in so far as is necessary to preserve the two distinct types of rural and urban societies, the former of which will consist in the main of agriculturists, and the latter in the main of non-agriculturists. Local Governments should remember, however, that the object of the Act is mainly to assist small people; and should take precautions against its provisions being made use of by persons for whom they were not intended. The very wide discretion which the Act confers upon the Registrar is ample to secure this end.

14. Another condition which was imposed by the original Bill was that members must be residents of the same town or neighbourhood. All the officers consulted who speak with any authority have insisted upon the cardinal importance of this condition as ensuring that mutual knowledge and confidence which must be the basis of all successful co-operation; and it has been retained in a slightly generalised form. But it has been pointed out that there are communities among whose members a common organisation or common interests supply the place of propinquity of residence and ensure the desired conditions. A compact and closely organised tribe or caste, a community such as is formed by the Native Christians attached to a particular mission, or even the employés on a given line of railway, are instances in point. The Act, therefore, empowers the Registrar to dispense with the residence test where he is satisfied that this may be safely done, if the society is to be confined to the members of a single tribe or class or caste,

15. As regards new members, the original Bill provided that members admitted to a society should be "elected by the members for the time being." It was pointed out that it would often be sufficient if they were elected by the Committee; and it has accordingly been provided that they shall be "admitted by the society in accordance with the provisions of this Act and with the bye-laws of the society." But the selection must still be personal and made by the society; no person can claim admission under any automatic rule; and the important principle that the new member must be accepted by the old ones or their representatives is still maintained.

16. The Government of India attach much importance to the appointment of a special officer in each province to guide and control the societies, especially in the early days of the movement; and it has been provided that each Local Government may appoint a Registrar, who should be selected for his special qualifications, and should, for the first few years at least, be constantly visiting the societies and watching their progress rather as a friendly adviser than as an inspecting officer. By studying developments under various conditions, he will gain experience, which will render him an invaluable adviser: he will know what has succeeded here and what has failed there; he will be in a position to avoid the repetition of mistakes, to point out defects and their remedies, and to extend to one part of the country methods which have proved successful in another. Upon the selection of this officer the success of the experiment will very largely depend. Gradually as experience is gained and the societies are able to stand alone, the fostering care of the Registrar will be less required until his duties will become purely official.

17. The Bill as introduced forbade a rural society to borrow save with the approval of the Registrar and Collector. This provision was much criticised as having the appearance of discouraging borrowing, whereas the very essence of these societies is to utilize their combined credit for the purpose of borrowing. The Government of India recognise the justice of the criticism; but they still think that an unfettered power to borrow might prove dangerous to a society. The prohibition has now been removed, but power has been given to the Local Government to regulate borrowing in such manner as experience may show to be desirable.

18. Section 10 of the Act provides that loans should be admissible to members only, and the Government of India consider that this is a most essential restriction. The only exception allowed is in the case of societies lending with the approval of the Registrar to rural societies. It is desired to encourage thrift, and the most efficacious encouragement to

the accumulation of savings is to insist that no advances shall be made except to those who have become members and have made a payment to the funds of the society.

19. The original Bill included certain provisions regarding loans on the security of agricultural produce which were very generally misunderstood. It was never intended to allow of advances against standing crops than which no form of security would be more unsuitable for these societies. But there are some of the existing societies, and there doubtless will be many more in the future, which never handle money, their whole transactions being conducted in grain. And the object of the provisions in question was to secure that agricultural produce should stand on precisely the same footing as money for all purposes of subscriptions, deposits, advances, payments and recoveries. Upon further consideration of the question, it was decided that such transactions were within the ordinary powers of the societies, and that no special reference to the subject was needed in the Act.

20. No provisions of the original Bill were more severely criticised by some, or more stoutly supported by others, than those which related to loans upon the security of jewellery and upon the mortgage of land It had been proposed to prohibit rural societies from advancing money against jewels, on the ground that the basis upon which these societies should work was not material security, but the credit which arose from the individual character and substance of their members. It was pointed out in reply that while personal credit was undoubtedly the basis of their transactions, such things as jewels might properly be received as collateral security; that the custom of the country is to regard jewellery as available for this purpose; and that if a member is debarred from utilising his material credit to the full in borrowing from his society, there will be a danger of his using it to borrow from the money-lender. After full consideration of the question it was decided that while there are practical difficulties in connection with the custody and valuation of jewellery, which might be formidable in the case of some village societies, it would be well to make distinctions. When a rural society is located in a town or large village, with silversmiths available, with a ready market at hand, and with members and officers of intelligence, it may safey be trusted to conduct transactions which might be dangerous in the case of a more strictly rustic association. Power has therefore been given to the Registrar to allow any society which he thinks can safely be trusted to advance money upon jewellery, and he will be able to feel his way in the matter.
